**Enjoy!**

# Trump Assured 2020 Victory

By  
Brian W. Kelly

*The president needs these two prongs for his platform  
in order to achieve a landslide victory*

# Trump Assured 2020 Victory

**Unique secret platform points that will win for Trump in 2020  
Trump approach solves two huge American problems, assuring his  
reelection.**

Everybody knows the Donald Trump agenda from when he ran in 2016 and from his great work trying to get it past a stubborn set of Republican Never Trumpers in 2017 and 2018.

There are two other items that when made part of his platform will assure Donald J. Trump a landslide victory over Joe Biden in 2020. These items are so powerful, and so unique and so needed for America that they will take him way over the top for the presidency in the 2020 election.

By announcing these groundbreaking items within two weeks of the election, the president will suck all the air out of the election room for his victory and Joe Biden will have no place to go but home in Delaware.

Here I am with the only idea in the world that actually solves the problem with the two biggest unspoken problems in the United States of America. The problems can be solved and this new approach addresses the two largest voting blocks in America—Millennials and Senior Citizens. Capturing these major constituencies will assure Trump an election night victory no matter what happens with the post-office ballots.

This is the biggest secret in American election history. You won't want to put this book down as you learn the ins & outs of how there really is a no-lose solution. When President Donald Trump loves an approach, he wins it at the ballot box. Trump loves to win.

# Dedication

I dedicate this book to my wonderful wife Patricia; our three wonderful children Brian, Mike and Katie; and our friendly friends—Ben our always very happy dog, who recently became an Angel, and Buddy, our always cheerful Catholic cat who now lives in Cat Heavencat.

Thank You All!

# Acknowledgments

I appreciate all the help that I have received in putting this book together as well as all of my other 243 other published books.

My printed acknowledgments had become so large that book readers "complained" about going through too many pages to get to page one of the text.

And, so to permit me more flexibility, I put my acknowledgment list online, and it continues to grow. Believe it or not, it once cost about a dollar more to print each book.

Thank you and God bless you all for your help.

Please check out [www.letsGOPublish.com](http://www.letsGOPublish.com) to read the latest version of my heartfelt acknowledgments updated for this book. FYI, Wily Ky Eyely, my wonderful basketball playing "niece," loves this book and recommends it to all. She wants "Uncle Brian" to be our next US Senator but he's not running.

Click the bottom of the Main menu to see the big acknowledgments!

Thank you all!

# Preface

Why did Brian W. Kelly write this book?

Brian W. Kelly loves America and he is a problem solver by trade. Brian developed a number of unique approaches to solving some major issues in America. Pennsylvanians suffer from these issues as much as those from other states.

Four times Brian was motivated to run for public office. Twice he went through the ballot access process as he ran for Congress in Northeastern PA and he ran for Mayor in his home town of Wilkes-Barre, PA.

Two other times, including 2018, Kelly ran for the US Senate as a write-in candidate. The cost in time and money for a regular person to achieve 2000 nomination petition signatures and travel around the state of Pennsylvania is far too prohibitive for the common man to get on the ballot for the office of US Senator. Sometimes getting one's platform exposed to the public is reward enough when the full goal may be unachievable.

Brian Kelly gets much of his message out in the books that he writes. This book is his 245<sup>th</sup> of 245 mostly non-fiction books. It is about two important solutions that are more important than the average American would at first suppose.

Two solutions not covered in this book include a plan to solve immigration and a solution for healthcare. Perhaps Brian will write another book about these two important issues. Not this go around, however. This time, we address the issues of student loans and Social Security COLA in ways you may not believe.

I hope you enjoy this book and I hope that it inspires you to consider the platform points presented as enabling Americans to take the individual actions necessary. This will assure that the government begins to refrain from fraudulent abuse of seniors and millennials.

Brian W. Kelly has developed the solutions for America and the Kelly team is in accord with America. Of that I am certain. I think we are all ready to move on to a set of best moves that will push America closer to its greatness destination.

I wish you the best.

Brian P. Kelly, Publisher  
Wilkes-Barre, Pennsylvania

# About the Author

Brian W. Kelly retired as an Assistant Professor in the Business Information Technology (BIT) program at Marywood University, where he also served as the IBM i and Midrange Systems Technical Advisor to the IT Faculty. Kelly designed, developed, and taught many college and professional courses. He continues as a contributing technical editor to a number of IT industry magazines, including "The Four Hundred" and "Four Hundred Guru," published by IT Jungle.

Kelly is a former IBM Senior Systems Engineer and IBM Mid Atlantic Area Specialist. His specialty was designing applications for customers as well as implementing advanced IBM operating systems and software facilities on their machines.

He has an active information technology consultancy. He is the author of 245 books and numerous technical articles. Kelly has been a frequent speaker at COMMON, IBM conferences, and other technical conferences.

Brian was a candidate for US Congress from Pennsylvania in 2010 and he brings a lot of experience to his writing endeavors.

# Chapter 1 Who is Sean Hannity?

Following Trump's election as President in November 2016, as far as the Fox audience is concerned, Hannity became known as Trump's most reliable defender among political commentators in all of television.

For eight years, Hannity was a vocal critic of President Obama in most of his anti-American decisions. He was also very outspoken regarding the Obama actions during the recession-era housing crisis. Hannity also saw that if he looked hard at Obama's poor economy, there were some ways that he could make some money on the economic downturn even if he could not fix it.

Knowing where Sean Hannity stands on most issues from being an avid watcher and listeners over the years, I had no second thoughts when selecting the title for this book. Sean Hannity's Platform for Americans, this book, eventually in Chapter 8 in a speech worthy of Lincoln Douglas debate credentials, solves the issues such as Obamacare, Social Security Millennials and Student Loans, Resident Visas, and Paying illegal interlopers to go back to heir home country. As a great American Sean Hannity would be the first to sign up.

V

## Chapter 2 If I Ever Ran Again

### About Brian W. Kelly

When you decide that a political career is for you, make sure you highlight your finest points. If you are Brian W. Kelly, your author, this is some of what you would say. This is what Brian Kelly says about himself when he considered putting together a campaign buzz for US Senator. I will now begin to use the first person in this chapter.

Brian Kelly (yours truly) is married to the former Patricia Piotroski, and the couple resides in Northeastern Pennsylvania as they have all their married life of forty-one years. They are the proud parents of three wonderful adult children, Brian, Michael, and Katie. Ben, the family canine, and Buddy, the family feline, reside with Pat and Brian, but are loved by all.

Your author was born and "raised" in Wilkes-Barre PA. He attended St. Boniface Grade School and Meyers High School. Brian was both a pitcher and a catcher on the Meyers High Baseball team and he was active in many school clubs as well as the student council.

I competed for an academic scholarship to King's College and was awarded a four-year academic scholarship grant, a National Defense

Student Loan, and a work-study job. The job in the federal work-study program helped him make up a \$50.00 per year tuition shortfall. Without such support, I would not have been able to afford college.

Tuition was \$475.00 per semester. Scholarship was \$250, and loan was \$200. I am most grateful to King's College for the Academic scholarship and to the Federal Government for the loan and work-study assistance. My degree was the difference between a successful business life and a blue-collar job.

I worked hard in college but I let a better GPA slip through my hands as a junior, when I spent a little too much time on fun. Nonetheless, I graduated cum laude ranked #29 of 382 from King's with a degree in Data Processing, the pre-cursor degree to Business Information Technology. While at King's, I was a member of two honor societies, the King's Aquinas Society, and the Delta Epsilon Sigma National Honor Society. I played varsity Baseball for the Monarchs as a catcher / pinch hitter, and then as a starting pitcher in my Junior and Senior years.

After King's, I joined the IBM Corporation as a Computer Science Systems Assistant where I spent 23 years before retiring, under a special program, as a Senior Systems Engineer. During my IBM career, I studied at Wilkes-University where I received an M.B.A. summa cum laude in Accounting and Finance. After my time at IBM, I accepted a position with College Misericordia as its Chief Technology Director / Internal IT Consultant. At the same time, I initiated my own IT Consulting Practice, Kelly Consulting. The web site is still up but more or less defunct [www.kellyconsulting.com](http://www.kellyconsulting.com)

After building the College Misericordia campus network, its connection to the Internet, its email and its Web servers, I was fired from College Misericordia when my new boss, a nun decided not to honor my pre-existing contract with the institution. To make it worse, Misericordia took my children's scholarships and this made it hard for me to remember that Misericordia (now Misericordia University) was a Catholic institution.

I then went on to spend full time in my own IT business consulting practice. In 2004, I joined the faculty of Marywood University and, in

addition to maintaining my consulting practice, I served Marywood as an Assistant Professor of Business Information Technology and as its IBM i system technology assistant to the Business Information Technology Faculty.

## **An Entreaty to vote for Brian Kelly**

When I was ready to become an elected official In Northeastern PA. before after taking my position at Marywood, I made the ballot for US Congress in 2010 and I ran as a Democrat v Paul Kanjorski. I surprised the pundit by taking no donations and still achieving 17% of the vote. Marywood ddd not like that I ran against a Congressman who had been good to the institution and despite a recent promotion and excellent evaluations, they fired me.

I decided to give a shot at a run for US Senate. When my campaign manager, a great person, Marty Devaney passed away as we were launching our campaign, I decided to stop the formal campaign and make myself available as a write-in candidate.

[https://ballotpedia.org/Brian\\_Kelly\\_\(Pennsylvania\)](https://ballotpedia.org/Brian_Kelly_(Pennsylvania))

I made my plea on my web site: Fellow Citizens of Northeastern Pennsylvania, I would like to present myself as a Candidate to be your US Senator for the State of Pennsylvania. As you know, this seat is currently held by Bob Casey Jr. but not for long. I am running as a write-in candidate, a Democrat against Mr. Casey in the General Election on November 6, 2012. I ran again in 2018 as a write-in.

If I did not make it, my backup was Lou Barletta a great Congressman who was supported in 2018's general election for US Senator by President Donald Trump. The President came to the Wilkes-Barre Pa area to support Barletta the first week of August 2018..In the 2018 election, the Casey name again prevailed and beat Brian Kelly and Lou Barletta and NEPA continues to suffer to this day with a Democrat Senator. That's why little make sense.

I am proud to say that--but for a few years as an independent living in Utica, NY, I would be a lifetime Democrat and a lifetime resident of Northeastern PA. Right after I earned my Bachelor of Science from King's College at the age of 21, I competed in a tough job marketplace,

and I had the good fortune of being hired to work as a Systems Engineer at IBM in Utica, New York. For two years, I lived in Utica as a registered Independent.

My dad, a lifetime Democrat, was very conservative and good man. He was a staunch believer in the importance of labor unions to help the working man in America. He worked as a plumbing/heating specialist at R. A. Davis in Wilkes-Barre and then as laborer at Stegmaier Brewery on "Brewery Hill" in Wilkes-Barre for thirty-one years--until the Stegmaier label was purchased by the Lion Incorporated. At that time, the Lion proudly brewed Gibbons Beer. Their popular jingle was as follows:

[G-I-B-B-O-N-S, pure refreshing Gibbons. If it's Gibbons, it's good—so the next time you should say gimme Gibbons!]

That is the essence of the 1960's Gibbons commercial. I can still sing it by heart.

Stegmaier of course brewed a number of different beers, including Stegmaier Beer, Ale, Porter, and Bach. When Brian was in his twenties, the "Brewery" brought back Liebotschaner, a finely crafted and aged old-time Stegmaier formulation. The company made its beer from fresh grains and hops and malt and it aged all of its products in huge vats on the left side of Market St. as one headed up Brewery Hill. The Stegmaier theme song was as follows:

[So! If you want a beer that's mellow, a beer that is really grand, say hey, make mine Stegmaier, the gold medal beer of the land. And, so at home, or club, or tap room; always order the beer that they cheer. Served just right; mellow, cool, and light, Stegmaier Gold Medal Beer.]

The paragraph above is the essence of the 1960's Stegmaier commercial. Yes, your author Brian Kelly can sing it by heart at your next post-covid gathering in NEPA.

My dad was pretty good at what he did, and he took his work seriously. For a number of years before its demise, Stegmaier had one of the fastest canning machines in Pennsylvania. My dad operated this

behemoth single-handedly. For its day, it was an awesome machine. It put out 600 cans per minute. That's even fast according to today's standards. Edward J. Kelly was quite a guy.

Dad and I regularly had discussions about beliefs and ideologies and which candidate truly was best for official jobs, at the local, state, and federal levels. More often than not, the two of us were on the same page. My dad's philosophy was that you should always vote for the best candidate for the job, not simply the political party. These discussions eventually prompted me to cancel my registration as an independent and become a Democrat. In Pennsylvania, Independents have no voice in the primary elections.

### **Lots of discontent today is not only brewing; it's boiling-over.**

There is a storm of discontent content brewing across the United States. You can feel it wherever you go. Regular Americans are beginning to pay attention to what our Congressional representatives have been doing against our will in Washington, D.C. Politics and government, and their collective effect on what's happening in America have become regular dinner table topics.

I know few people today who think President Obama was a good president. In fact, most of my friends have him slotted as one of the worst presidents ever. I think they are right! Sometimes particular Democrats do not have it right. It is OK to be upset. It is OK to show some disgust for what these knaves such as Bob Casey Jr. have done to America. It's OK to be disgusted, Me too! That's why I ran for Congress and for the US Senate as a write-in.

I am still a Democrat because like many of you, I am hoping the Democrat organization becomes a party that mirrors the people rather than going so far left we are all left behind. The leaders of the Democratic Party so far have betrayed the common man, such as you and me; but none of us writing or reading this paragraph are dead and so we can change the Democratic Party, so it no longer is a party of identity politics that separates Americans under the guise of diversity.

Instead for the sake of American unity, we can all join together under the huge umbrella of the US Constitution and reject those leaders who

have led us down a path to perdition. The closest party to the Democrat Party my dad and I would like is today's Republican Party but they are far from perfect and there are a lot of wimps and RINOs at the top of the party. Still, their values are better than the socialist / communists who run the Democrat Party today.

What's not OK folks is to sit around and let these same elitist establishment types come back again in 2020 or 2024 to inflict more harm on the American people. Vote them out. You have the power! We have the power!

I decided to run for the US Senate as a write-in candidate because somebody has to represent US. I was a write-in because it meant that I did not have to bootlick the rich and powerful for donations. We need change more now than when we thought we needed change and for some reason, America brought in Obama twice. Thankfully when Obama did not blow up the US, though he left it in shambles, God decided to give us Donald Trump as a model for how things should be done now and in the future. But, for four years the Democrats have not accepted his presidency. They still think Hillary won.

What we do not need is the kind of change that exalts one man and attempts to silence a nation. I ask you to vote "for the people" on November 3 of this year. Vote Trump in for another four years or Biden and Harris will show us why we do not want to be communists. We need to avoid bringing back the Democrats with their big, intrusive, freedom-taking government. All the politicians will be back overnight in an Obama/Harris regime.

It seems the kind of change we have been getting from our former anti-American President and the corrupt Congress was good only for the government and the high-paid bureaucrats. It was not the right formula for freedom-loving Americans. While you and I were asking to have government less involved in our daily lives, Congress and our former president (Obama) were throwing one freedom-stealing regulation after another on us on their way to making this a socialist nation. This Congress does not represent the people. Matt Cartwright is a phony and we need Jim Bognet to support Trump.

We can fix all of that. All we have to do is vote them out. Some people think that they are powerless, yet we have all the power. Donald Trump will be our leader and we the people will prevail. I am not running for anything this time. I am supporting Republican candidates because I am sick of Democrat impeachments and them getting in the way of the Trump way of Making America Great. Please do not vote for anybody who has hurt Donald Trump's presidency when November 3's general election arrives.

Don't count on other states to get this job done without our participation. It all starts at home. For US, that is Pennsylvania. Our time has come. Good-bye to all the incumbents who are contributing to the downfall of America. Good-bye to Bob Casey in four more years, an embarrassment to Northeastern PA. Good-bye to Matt Cartwright, the richest Congressman we've ever had in NEPA. He has no idea about your pain. Hold your collective noses and then vote him out!

## Things worth repeating are worth repeating

Here is some stuff from a press release by the campaign that is very readable as yare most of your author Brian Kelly's writings. It calls the people to action. I believe that we the people have no choice than to be more than mere passers-by in a country being dragged into submission by people who hate America.

I think you'll like reading this press release from several years ago as it still applies.

\*\*\* PRESS RELEASE \*\*\*

**BRIAN KELLY ANNOUNCES HIS CANDIDACY FOR the US SENATE FROM PENNSYLVAMIA.**

## Kelly Says It Is Time to Return the Government to The People!

Brian Kelly, a former IBM Senior Systems Engineer and Assistant Professor of Business and Information Technology (BIT) at Marywood University in Scranton, recently announced his write-

in candidacy for the US Senate . [OK it was a little more than a little while ago—early Trump, but the message is what is important.]

Kelly has promised that he will run as an independent write-in candidate as a Democrat in the general election since he did not compete in the primary election. Brian asks all Democrats to vote for him in the general election as he will serve all voters well.

Brian Kelly has worked in the private sector all his life. He hates what is happening to the US and to Pennsylvania and his solutions are designed to make it better.

Brian Kelly expresses his reason for running for public office in these simple terms: "to return our government back to the people." Kelly notes that government spending is out of control and that only a change in leadership can turn government away from more unpopular tax-payer funded bailouts, crippling taxes and government-takeovers. Casey, a successful lawyer of course is for more spending and for more taxing of those who earn a living in Pennsylvania.

Brian sees the solution as "We must create jobs, not destroy them. The policies of Bob Casey and Barack Obama were killing US businesses before Donald Trump was elected. Like many, I fear the building of a huge, never ending bureaucracy wherever you look." Brian believes that Bob Casey must go so a Trump-Friendly legislature can be in place to help America.

Kelly finds government as the only "industry" which prospered before Trump. Now, all of America is moving forward, and those who are in the way of the Make America Great Again agenda, both Republicans and Democrats need to be replaced. That's why you need to write-in

B-R-I-A-N K-E-L-L Y.

Brian fears the seemingly predestined government takeover of healthcare, the disrupting of the doctor patient relationships, and the bankrupt notion of repressive energy tax legislation and the

destruction of the industry that produces America's most abundant energy source—coal. He is concerned that all of this excessive government, which the incumbent supports, will make it tough for Americans to live like Americans. "You can be assured that I will work to stop these flawed changes brought about by poor leadership." Kelly said.

Kelly said that in order to restore the economy, "a brand-new Congress must be committed to getting government to stop micro-managing the economy." They must support Donald Trump to help America.

Government takeovers, national debt, a huge deficit, and the major job killing regulations of the Obama / Casey administration are being rejected summarily by all Americans.

Pennsylvanians will be hurt even more than others by the shutdown of coal and an "energy tax" since many PA communities still have a viable coal industry. Casey is not for Pennsylvanians and his votes could kill the energy industry in PA through taxes or restrictive regulations.

Besides being unfriendly to Pennsylvania business and industry, the only creators of lasting jobs, Bob Casey is vulnerable in 2018 because his positions mirror those of the unpopular Chuck Schumer, Nancy Pelosi, and Maxine Watters. Why would our Senator, against constituent write-ins, support Obamacare and other socialist, budget busting legislation?

Kelly boasts that he has the backing of no political machine and he is taking no political contributions. "It sure should save a lot of time, not having to run fund-raisers." Kelly said. He is proud to say that his total war chest from contributions is \$0.00, and he is nowhere close to having to pay the "Obama / Casey Rich Tax."

Kelly feels his message will be brought forth now that he has made it known that he is a serious contender for the nomination and for election in November 2018. By writing in the name Brian Kelly, the people will recognize that a regular old "John Doe," not a political operative has made himself available to the people.

Kelly once had a lot of affinity for the "Tea Party People," and those like you and I, who are not part of a named group but who nonetheless have been justifiably enraged at the unresponsiveness of our government. From Kelly's perspectives, the left made the tea party seem like a bunch of life perverts and nobody complained loud enough to know they that it was not the tea, it was the name and it was the people, regular people who the left hoped to discredit but could not because they were simply you and me. .

Kelly said: "At this stage of my life, I see things that can be so much better if Americans had better representation. I feel in many ways like George Bailey from the Building and Loan in "It's a Wonderful Life," seeing the face of the corrupt Mr. Potter in too many hallways of government.

"I'd like to take the spirit of WW II Brigadier General Jimmy Stewart (real life) as George Bailey and keep all the Potters out of government for an awful long time--even if it means that I have to put in a few years myself." See this book or the Internet for a perspective on Jimmy Stewart as Mr. Jefferson Smith.

Kelly is not interested in a career in politics and when elected will stay for just one or at most two terms. Kelly says: "A regular person holding an office becomes a politician when trying to be reelected."

When the constituents of Pennsylvania get in the "voting booth," no matter how many dollars Bob Casey has spent to advance his candidacy, the only thing voters must remember is two words forming one name, Brian Kelly. It is just ten letters and a space. When they write that name in BRIAN KELLY on the ballot, things will begin to change almost immediately.

"The voters will ask themselves, 'is he a politician?' and the answer of course is 'no.' As voters across the US are trying to free themselves from machine politics, with votes to the highest bidders, Brian Kelly is betting that in Northeastern PA, being 'of

the people' will matter more than anything on November 6, 2019.  
" Kelly said.

As an author, Brian Kelly wishes he were not so old that he has been able to write 2455 books, many of which are in the high-tech field. He is tickled, however, that he has written over 100 books since 2010 hoping to convince his fellow Democrats that we must not permit the power brokers in the Democratic Party to ever win again. We can still be good Democrats if we force the power brokers to be more human.

In 2007, Brian Kelly began research for his first book about government. In 2008, he released these first efforts with a book titled, Taxation Without Representation, sold on the Internet at such places as Amazon.com and Barnes & Noble. He has updated the Taxation book three times and wrote many new patriotic books since then.

These are the product of major research as well as his clear opinions as to how the country has gotten off course. Two of his newer books include Wilkes-Barre PA Return to Glory! and The Constitution 4 Dummies, and Millennials are people too !!!. Those who think the thoughts of the people do not matter, will not read any of these books

Kelly is an ardent defender of the Constitution and in many of his books, he adds appendices with the full text of the US Constitution and other founding documents.

By visiting this website at [www.kellyforussenate.com](http://www.kellyforussenate.com) or by reading his books, available at amazon.com/author/brianwkelly, it is easy to know that Brian Kelly stands where you stand on the issues of the day. He sounds like one of US because he is one of US.

Brian Kelly asks all Democrats and Republicans in Pennsylvania to write-in Brian Kelly in the General Election on November 6. Two words, both are needed for a valid write-in. "I promise that you will have change --- this time it will be change that you can live with." And, won't that be a grand day. -----

Best wishes for a better America from Brian Kelly.

Sometimes it helps to see things again in summary form:

### **Brian Kelly's Summary Background:**

- E. L. Meyers High, W-B, PA, with honors
- B. S. from King's College cum laude
- M. B. A. from Wilkes University magna cum laude
- 23 years with IBM Corporation as Senior Systems Engineer
- 15 Year Ongoing Consultancy--Business and IT Consultant
- 5 years Misericordia University, Chief Tech Officer
- 7 years with Marywood University -- Assistant Professor, Business Information technology
- Author—164 books, Hundreds of magazine articles

Brian Kelly believes in the effort to restore reverence for God and respect for the unalienable rights to life and liberty in America.

Brian Kelly believes and understands the notion of self-government of, by, and for the people – as well as our moral, physical, and economic sovereignty. Kelly has written four books in this regard:

Taxation Without Representation; Obama's Seven Deadly Sins - ; and Healthcare Accountability. Included in each of the first three books is a full copy of the Constitution of the United States, something that we all should keep in our hands in these trying times. Kelly penned another book titled: Jobs! Jobs! Jobs! in 2010.

Altogether he has written 164 books. Most were penned between 2010 to 2018. All are available from [amazon.com/author/brianwkelly](https://www.amazon.com/author/brianwkelly)

Brian Kelly is easy to understand. He is in synch with the Donald Trump agenda. He is an advocate of a complete overhaul of our taxing system and the abolishment of the 16th Amendment, thereby eliminating the tax code and the IRS. The Fair Tax has many advantages over the current income tax system. The Fair tax seems to have the most advantages of all other options, but even the Flat tax is far better than our current income tax system

- Brian Kelly is an advocate of strong border security

- Brian Kelly is ready to declare our nation's reliance on God as fundamental.
- Brian Kelly will work to protect our unalienable rights to life, liberty, and private property.
- Brian Kelly will help restore and protect our constitutional republican form of government.
- Brian Kelly will work to protect the institution of marriage and the traditional family.
- Brian Kelly will work to protect our national sovereignty, military strength, and border security.

## Chapter 6 Mr. Smith Goes to Washington

Jimmy Stewart from the movie, *Mr. Smith Goes to Washington* was a guiding light for my campaign. The people like Jimmy Stewart and the honest guys like Jefferson Smith are indispensable for a great democracy / republic. Donald Trump and Jefferson Smith are two from the same mold—for America first!

### Mr. Smith Goes to Washington

Ladies and Gentlemen, I would like to present myself. My name is Jefferson Smith and I am going to Washington—if you select me of course.

Jimmy Stewart is one of my favorite actors of all time. Donald Trump is my favorite president. JS is as Americana as it gets with the perfect touch of honesty that makes even men admire the actor and the character the actor is playing. My favorite movie of all time is "It's A Wonderful Life." It gets me every time. Remember the big pot of cash the neighbors brought in to George Bailey, so he could keep the Building and Loan going. Well, that's how I think America should be. Every hard-working American deserves a break.

Donald Trump is known to have a big heart and is credited with numerous random acts of kindness. For example, Trump gave \$10,000 to a bus driver who saved a suicidal woman, gave \$25,000 to a U.S. marine sergeant arrested and detained in Mexico, and allowed an orthodox Jewish family to use his private jet in order to seek urgent

medical treatment for their young son. Mr. Trump is known for a big heart. We have a man who has been very successful in life and yet he assuredly carries a deep compassion for everyday hard-working men and women. There are collections of these stories about Trump's great acts of kindness and generosity, most of them to strangers. There are also stories of him turning impossible situations into success stories!

<<< Here is a book you can check out for more stories:

What George Bailey did not need to be a good man was the government stealing from his neighbors so that he could go to college and to heck with Pottersville. Well, it would have been Pottersville if George had not stayed to help all the people in Bedford Falls with his dad's Building and Loan Company. Government intervention creates Pottersvilles and good neighbors create the likes of Bedford Falls. Let's let good people be good people again rather than taking so much from them that Mr. Potter is the only one left with any money.

Mr. Smith Goes to Washington exudes the same emotion from the viewer. It was another of Frank Capra's big hits and Jimmy Stewart as Jefferson Smith is as down to earth as George Bailey. I did not propose that I could do as good a job for Northeastern PA as Jefferson Smith did for his constituency. However, I am as much a babe in the woods

as far as politics go as Mr. Smith. I would have sure tried to do my best.

I was running for office to help fight the same type of corruption that Smith faced when he went to Washington and Trump fights every day in Washington. I was up to the task but I did not have the resources when I began my quest. Like Trump, I was ready to fight to make America, America again.

There was nothing separating me from my chance other than this general election and the people's write-in. I did not make it because in today's day and age it takes a lot of resources to become known. Ironically, my local paper liked me but they did not endorse me because they said I had no political experience. Before being denied the paper's endorsement, I had thought simply by not being a politician would have given me a huge advantage. Not so!

You may know that Kelly is the second most common family name in Ireland (after Murphy). It is the 69th most popular surname in the United States. Kelly in many ways is like Jones and Smith.

And so, will you indulge me please as I say what I said numerous times when I was a candidate. My name is Mr. Smith, and I am going to Washington. I can't get there without your help.

Think of the corrupt conditions that existed in this famous movie as Mr. Smith, played by Jimmy Stewart. Smith was little more than a bumpkin, when he first went into the Washington swamp of iniquity. For Smith, it was the US Senate. He was the naive and idealistic Jefferson Smith, the leader of the Boy Rangers. In Washington, Smith soon discovered many of the shortcomings of the political process as his earnest goal of a national boys' camp led to a conflict with the state's corrupt political boss, Jim Taylor.

Taylor first tried to corrupt Smith and then later attempted to destroy him through a made-up scandal. Smith conducted a heart-wrenching filibuster and finally swayed everybody to not pass the healthcare bill. Wouldn't that be nice! (It was the Boy Rangers Bill). Smith would be working to get the bill repealed if it were passed, and the movie would have taken a bit longer. Kelly would have made the repeal of the 2700

page Obamacare bill a priority and would have replaced it with an EMTALA-like bill in the neighborhood of 4 to 8 pages. Additionally, I had devised a great plan for illegal interlopers and my plan also wiped out all student debt now and Boost Social Security payments so that the elderly can keep living in their homesteads. The latter two platform points are the focus of the rest of this book.

Stranger things have happened. I would have been as much like your Mr. Smith if you had select me. And, so, without being in Congress, I am left with devising real plans that can make America a better place. Student loans and a great big make-up Social Security bookst are two of the items I have been working on for years. I finally think I have a persuasive argument for President Trump to adopt both of these Measures. Pay attention to the next several chapters and you will find out why this is a great idea and how it can be accomplished.

## **Chapter 8 Sean Would Love Brian Kelly's US Senate Platform**

**Note from your author and Senate Candidate  
Brian W. Kelly**

**Brian Kelly when Chief Technology Officer College Misericordia circa 1994**

No, I don't look like this anymore, but I did look like this when as the chief technology officer at College Misericordia in the 1990's, I began to pay a lot more attention to what goes on in our government. The College paid for this picture.

By now, I admit that I am not too happy with what I discovered about government and politics in our country. That, and because like you, I could not afford a full-bore Senatorial campaign, is why I am running as a write-in candidate for the US Senate.

Ask yourself this question: Would you hire any Congressman in America today to run your business—even to babysit your kids? Me neither! Yet, we hire them through the electoral process to run the most complex country that ever was—the United States of America. It is clear that at some point we must begin to make better choices. Why not start in 2018?

I think the best way to begin this book is to give you the announcement speech that I will give the first time I am given a forum in a cost-free venue. There is a lot in this speech but then again, there are many issues today in America. As I review the contents of this speech below, I wish that I could make the speech shorter and at the same time more comprehensive, so you fully know what the platform is all about and why it is worthy of your consideration. I have done my best, but I do admit that this is not one of my shortest speeches. Thank you.

Originally, I wrote this speech for Congressman Lou Barletta, hoping he would adopt the platform elements in this speech as his own. I believe the Congressman likes these ideas but as he is running for Senator as a Republican, it would be difficult to convincing officials in the Republican Party of their worth. It would be tough to push a platform that may have a negative effect on the budget cuts Republicans are seeking. And, so, I decided to go it alone, and instead of expecting the man who I believe may still become Senator Barletta present these ideas for America, I will do the job myself under my own write-in candidacy.

Yet, please, if you must vote Democrat in this election, remember that unlike Bob Casey Jr., I am not a Chuck Schumer or Nancy Pelosi

Democrat nor am I a Maxine Watters Democrat nor do I stand for any principle such as the abolishment of ICE that harms the country I love. I would be pleased to accept your vote of confidence for my candidacy. Just write me in.

B-R-I-A-N K-E-L-L-Y

Don't type the dashes.

I never received a reply from Rush when I sent this speech to him about my Senate platform. I knew he would love it. This speech, which I wrote for the announcement of my write-in candidacy for the office of US Senator from Pennsylvania offers great solutions for Obamacare, Immigration, Seniors and Social Security, and Millennials and Student Loans. I bet as soon as Rush reads this again, I will get a call to be on the show.

Hey Rush, even if you think I did not do a good job in framing the issues, how about the speech below that is in this chapter? It precedes the discussion of issues. Not having a lot of money as a regular guy hoping to make a difference, I am awaiting the opportunity to give that speech in a Pennsylvania venue to announce my candidacy. I have been asking local media (Times Leader & Citizens Voice) for help but so far, they have declined by not responding. I may choose to mount a Facebook-only campaign if I cannot find a free venue where I can speak.

With this speech, I will be able to show off a platform that can make seniors and millennials whole, fix the problem with illegal foreign nationals in the shadows, remove the need for sanctuary cities, and the problems with DACA, and help Americans afford health care insurance again.

Rush, I know you will love this platform because it solves a ton of problems and puts bucks in some folk's pockets who have forgotten how nice a dollar looks.

As an aside, originally, I had no interest in running for the US Senate. I was supporting Lou Barletta and he and I were discussing his using

my speech and the extra platform points (besides the Trump agenda) that are contained within the speech. He was very interested. I reviewed the entire matter with Congressman Barletta on one of his trips back to Washington. After a length of time, He stopped communicating with me. So, I decided to run as a write-in. If Congressman Barletta agrees to adopt the points in this speech, I will immediately withdraw my request that the people of Pennsylvania write my name in on November 6.

God bless all of you who have purchased and read this book. Now you can enjoy the speech announcing Brian Kelly's candidacy for the US Senate against two-term Democratic incumbent Robert P. Casey Jr. It is so right on for today that I enjoy it every time I read or edit it.

As you will see in the beginning of the speech, I designed it for an audience full of people. I have already had some reaction to my running from people in my inner circle.

Here it is:

## **Fellow Citizens,**

Language is inadequate to express my gratitude for the privilege of submitting before you my candidacy to represent the fine people of Pennsylvania as your US Senator.

I would also like to thank you for the fine welcome, which you all have extended to me on this occasion. As I look out in my mind's eye, I see a vast sea of human faces who share a common interest, as do I, about the greatest questions of our times. Beyond occasionally agitating the mind, they now dominate the concerns of all Pennsylvanians and U.S. citizens, underlying the foundations of our free institutions. Let us all make sure that freedom never becomes just another word for nothing left to lose.

The reaction of my U.S. Senate candidacy by the people of Pennsylvania has been quite heartening. We have a president whose interest quite simply is to "Make America Great Again." By contrast,

the embedded establishment and liberal leftovers in the SWAMP, have no interest in performing what is good for our country. They are doing their best to undermine our president, without any repercussions, aided and abetted by a corrupt media, instead of building bridges to work for the good of all Americans.

It is no longer acceptable for a Democrat or a Republican to be a Never-Trumper. Donald Trump is our president and his platform is my platform and when elected, I hope the extras in my platform that I introduce in this speech, become part of the Trump platform.

We all know that “Never-Trumpers” will never hold office again. Democrats such as Bob Casey Jr., my opponent, simply adore the establishment’s impediments to the president’s agenda with a media whose interests are as adverse to the American people as the British press was during Colonial Times.

The Democrats and the Republican Never-Trumpers in the Senate, House, and the federal bureaucracy and the degenerate mainstream press have done everything they can to thwart the will of 62,979,636 people who voted to clean out the SWAMP with a fresh new presidential administration.

The legendarily venal Hillary Clinton lost the election after the public saw through her charade; yet she continues to parade around the world blaming everything from her own adoring fans at The New York Times, to white women like her, to the DNC, and probably even the cows in Wisconsin, a state she famously lost after taking it so for granted, she never visited.

She even blames the FBI and it never occurs to anyone that the best way to avoid an untimely FBI intervention in a political campaign is to *not run for President while under federal criminal investigation*. And all the while, Senator Casey stood by submissively, applauding and enabling this farce of a candidacy. It is time for the country to move on. She lost, now get over it. We’ve had twelve years of Casey and that’s about as much as any man or woman in America can stand.

I am running for the US Senate to reclaim this seat which rightfully belongs to its people, not the extrinsic interests controlling our

politicians who would tear the Constitution in half without hesitation if it would please their donors and cheerleaders in the mainstream media. Despite the shameless lack of virtue that defines the top echelons of our government, our country itself is replete with honest citizens who would be humbled to work on behalf of their fellow countrymen and women. That is why I am running for the US Senate against one of the biggest icons of mainstream mediocrity and corruption, Mr. Bob Casey Jr.

Casey Jr. caters only to the whining anti-Trump crowd who wants to turn every trivial post on Facebook into a new Cuban Missile Crisis. Despite the voters in even his home state rejecting the rank duplicity of former Secretary Clinton and her bleak vision of hopelessness and sovereign state decline, Senator Casey never lifted a finger to help the people who support our president, despite the fact that we outnumber the opposition right here in Pennsylvania. But to him-- that's Bob Casey, folks; we do not even exist.

The Bob Casey Jr. that we all see is a do-nothing Senator who would prefer to turn the US into a globalist abyss rather than support its sovereignty or its people's dignity. Meanwhile, our great president is trying to find everybody a high-paying job by making it easier to conduct business in our country. I intend to help President Trump protect us from such parasitic interests.

If there is one principle most cherished in all free governments, it is that which asserts the exclusive right of a free people to form and adopt their own fundamental laws, to manage and regulate their own internal affairs and domestic institutions. That is under constant attack by Mr. Casey and his legions of Clinton dead-enders.

Electing representatives of the people is not a triviality, but rather the expression of the most fundamental right of self-government. Without it, of course, this great United States would be like any other country in the world. It would not be the exceptional republic, which we the people have enjoyed since our own Declaration of Independence.

To say that I am honored to be here today presenting my candidacy for the US Senate, would be the understatement of the ages. Thank you for your reception and hospitality. I assure you that if elected, I

will provide Pennsylvania and the United States of America the best representation in the US Senate of which I am capable. You can be sure of that.

-----

We have many issues today of which the people are concerned. My plan in this address is to limit discussion to just four of the most prominent. My candidacy uniquely addresses each of the four as no other candidate for any US office has ever been able to do. I hope you will find the elements of my platform a welcome refreshment and inclusive of precepts that we all embrace and recognize as sincere and necessary.

My format will be to be present each issue by area of concern and then offer the specific solution which is part of my unique platform. The issues and solutions will be presented one by one in the following four topical areas:

#1—Obamacare.

#2—Illegal Immigration.

#3—Student Debt Crisis Wipe Out All Student Debt Now!

#4—Social Security's Cost-of-Living Fraud – Boost Social Security Now!

My pledge is to put forth legislation when elected to help address all four issues as well as full support for the platform points in Chapter 7 and the Trump agenda. Let's discuss the unique four-points above, one by one, starting with Obamacare.

## **Obamacare**

The first problem on the list is #1 because over 54% of Americans say that the availability and affordability of healthcare is their #1 issue. Despite Obama's empty promises, many of us cannot keep our favorite

doctors nor can we retain an affordable health plan that meets our needs. The costs have been so prohibitive that many Americans have forestalled doctor's visits with often grave consequences. We all know that despite what Bob Casey would offer you, Obamacare is a disaster.

My solution to Obamacare begins with clarity and definitive purpose. We start with a one-line repeal. The beast is vanquished. Following the repeal, we envision a plethora of competing less expensive alternatives provided by the marketplace without current tyrannical government controls.

## **Illegal Immigration**

In February 2004, Arizona Senator John McCain recognized via Border Patrol reports that nearly four million people crossed our borders "illegally" each year following the Reagan amnesty in 1986. Nonetheless, the fraudulent press insists that the total count of illegal immigrants residing in the United States is eleven million, a mathematical impossibility if Border Patrol figures are to be believed. And of these millions of foreigners, countless amounts receive welfare while, contrary to popular mythology, very few actually work in agriculture.

There may be as many as 60 million and perhaps more illegal foreign nationals living in the United States today. While some individuals in this group may contribute to our society, on balance this is outweighed by the group's overall negative effect on our resources, whether they be drained by government assistance, lost employment opportunities for American citizens, or criminal offenses. It is amazing how effective the fake-ID business is in turning illegal aliens into fake citizens who are thus enabled to enjoy American rights and privileges.

According to the 2011 GAO report entitled "Criminal Alien Statistics," the cost of crimes by illegal foreign nationals is \$8.1 billion per year, and that's without even considering the incomprehensibly larger emotional toll this takes on families whose priceless loved ones can never be replaced.

If elected, I will introduce two pieces of legislation that will solve this problem of illegal residents in the shadows once and for all. Besides many other benefits, it stands to save the U.S. over \$1 Trillion per year in addition to major reductions in crime. The two solutions are known as pay-to-go and the resident visa program.

## **Pay-to-Go**

It costs taxpayers \$30,000 per year on the average, per illegal alien in America. Each illegal resident and their dependent children, who signs up for Pay to Go, on the way back to the home country, will receive a one-time \$20,000 stipend plus the individual expense back to the home country. With a cost of \$30,000 per year to support unwelcome interlopers, the taxpayer savings begins year one and continues at \$30,000 per year forever. Not a bad deal for Americans.

The program therefore quietly accommodates family reunification in the home country. A family of five for example, could do quite well back home after receiving \$100,000 in stipends from Uncle Sam. Reuniting families in their own countries is a good idea for them and for America. The savings in welfare means there is no cost in year one and in year 2, the savings equal \$30,000 for each person who “goes.” back home, never to return.

## **Resident Visa**

Those who do not want to leave the US can sign up, be vetted, and eventually be approved for the Resident Visa. The visa will cost \$200.00 to cover vetting in year one and it will be renewable every year thereafter for \$100.00 To get a Resident Visa, a former interloper would agree to all stipulations after registering. Stipulations would include full initial vetting; onsite renewal vetting; keep existing jobs; new jobs for Americans first; no voting; no citizenship; no welfare and no freebies of any kind. Everybody is not automatically approved. After vetting, those not approved for the resident visa program may use the Pay-to-Go program to aid in their relocation.

As the program would entail 100% participation from illegal residents, estimates are as high as \$500 billion per year cost savings in total for those who choose to go or for those who choose to stay using the no-welfare resident visa. Another \$500 billion will be reclaimed over time for lost wages. Additionally, if we can figure a way for countries to reclaim their criminals, there is another \$8.1 billion to be recovered.

Once the program is in effect, there would be no more illegal aliens in the country. Resident Visa holders would be legal and so there would be no shadows. There would be no need for DACA and no need for Sanctuary cities Let me repeat that. All issues with DACA would be over and Sanctuary Cities would be a thing of the past because there would be no shadows and no illegal interlopers.

Two additional programs are the part of my platform that I would now like to introduce. Like the resident alien plans, no other candidate for public office includes these great programs in their platform. You are going to love these.

These two new programs offer the promise of a positive effect on the health of the economy and both will contribute to improving it for American citizens of all ages to live well in this country. The first is about wiping out all student debt and the second is about offering Social Security recipients increased benefits to make up for fraudulent cost of living increases based on an intentionally fraudulent consumer price index.

## **Student Debt is Huge**

If we look at the \$1.48 Trillion dollars in student loan debt that more and more young adults simply cannot repay, some have asked: “Why do our young people no longer matter?” Do they matter?

We live in an age when everybody seems to have a reason to pick on millennials. They would not loan a “spoiled” millennial “ingrate” as much as a dollar for a cup of coffee.

Whether millennials are deserving of the bad rap or not, they represent a lost generation of our society. For the sake of all of America, they need to be invited back in. We all have student loan debtors in our families – sons, daughters, nephews, nieces, even grandparents and parents when we consider cosigners.

I plan to offer legislation when first elected to make sure we solve this nasty American problem. There have been many other debt reliefs in our history but none that could deliver such an immediate benefit to so many actual Americans all at once. The upside would be overwhelming, a joint humanitarian return and a major economic return far greater than any bailout in history. Let's consider.

## **A Bailout is a Bailout?**

Many of us remember bailouts of the past from 2007 onward. We had bank bailouts, auto company bailouts, TARP bailouts and many other unnamed bailouts. Did any of these help your family? Of course not. Bailout fever began right before Obama became President and continued. The President managed all of the money—trillions. He chose not to give a dime to help student loan debt but spared no expense showering the degenerate financial institutions that owned his candidacy with gold.

Mike Collins, a Forbes Magazine contributor whose expertise focuses on manufacturing and government policy (not the former beloved magistrate of Wilkes-Barre who shares the same name) had this to say:

“Most people think that the big bank bailout was the \$700 billion that the treasury department used to save the banks during the financial crash in September of 2008. But this is a long way from the truth because the bailout [ten years later] is still ongoing.

The Special Inspector General for TARP's summary of the bailout says that the total commitment of government is \$16.8 trillion dollars with the \$4.6 trillion already paid out. The [same] banks are now larger and still too big to fail. But it isn't just the government bailout

money that tells the story of the bailout. This is a story about lies, cheating, and a multi-faceted corruption, which was often criminal.”

Like most elements of his presidency, Obama made the situation worse when he commandeered the student loans from Sallie Mae and other lenders. The government now pulls in more than \$50 billion a year from charging high interest rates to student borrowers. The Obama Student Loan Company charged 6.8% as a student interest rates. The CBO estimates that the interest rate on these loans could quickly be reduced from 6.8 percent to 5.3 percent if Obama had not earmarked the profit from the backs of students to subsidize Obamacare.

Not only were millennials duped into huge college loans when they were so young that Clearasil was one of their major expenses, they were duped into believing Obama was in their corner.

I believe these student victims deserve a break. They are now adults. Some stuck with huge cosign tabs are grandparents on Social security. The government actually garnishes their SSR to pay back the Obama loans.

The federal government is putting up \$16.8 trillion dollars as of 2018 to big banks, and other nameless faces receiving bailouts. We still do not know who is getting our money. Yet students who are still being victimized by usury were preyed on as 17-year-olds by admissions counsellors for an all-but worthless college education leading to no job. If given the choice would you be helping the big banks or our own kids?

## **What do the people think about Student Debt?**

Four in ten Americans believe that President Trump’s administration should forgive all federal student debt in order to help stimulate the economy, according to a reasonably new survey revealed in 2017. As time goes by as more Americans realize we are excluding a full generation of Americans in our economy, this number will increase from a simple majority to an overwhelming endorsement of wiping out this scurrilous unfair debt as soon as possible. We should bring these

48 million students back into the American way of life as soon as possible.

The largest share blame for the student debt crisis lies with the promises made by over-zealous admissions counsellors convincing kids to sign up for \$100,000 loans. No American can want a full generation of other Americans to be left behind in the Trump economy. We need this debt eradicated now and to install safeguards so that seventeen-year-olds in the future are never asked again to sign up for a life in debtor's prison.

According to MoneyTips.com, attitudes have changed from a time when Americans thought college students should be punished for making bad choices to today, when we could use 48 million new spenders in our economy. They would be unleashed into a world of productivity if no longer burdened with massive debt. Many of us know first-hand the consequences of this debt burden. Though millennials may not be the most gracious in asking for help, they are Americans, not DACA immigrants, and they need our help now.

The raw economic fact regardless of your philosophical preference is that spenders with the greatest potential to spend today are not spending at all in real numbers because of student debt. They are not getting married. They are not having families and they are not buying homes. We must solve this scourge on our country so that this generation can produce other generations of Americans.

Our children are not MS-13 members in disguise; there are our kids. American kids. They were snookered to join academia for what they were deceived into believing was an indispensable college degree by depraved loan sharks. Let's give them a full chance. It costs a university nothing when their students with huge loans fail. Please let that sink in.

Let me review the plight of young American college attendees and graduates. Barely out of adolescence, these young Americans were wheedled into commitments based on fraudulent promises by admissions counselors and financial institutions. It was unfair to pit experienced loan sharks against adolescent teenagers. The students were further damned by a paid-for Congress, whose lobbyists insisted

that these select few with student debt, distinct from all of the others in America, had no opportunity for any relief in the bankruptcy courts.

Non-college graduates with a trillion dollars in credit card debt are still able to obtain full relief from the courts. Why did Congress exclude these former teenagers, who clearly have been the biggest victims of loan-sharking organized racketeering ever seen in America? Why?

I am pledging today to solve this problem as soon as I can. I am ready to take action. I hope you all agree. Let's help these young Americans before they are lost forever.

Young teenagers were told all through high school that the best ticket for a successful life is a college education. Is this true today? Their salaries often lag behind even those of non-college educated professionals such as plumbers, electricians, computer repair personnel, operating engineers, and more. Because of their reliance on these deliberately false misrepresentations, they now owe an approximate average of \$50,000 in student debt while their admissions counsellors and loan sharks revel in riches, in their Mercedes, BMW's, and third vacation home on the lake.

Unscrupulous malefactors with self-interested agendas persuaded America's teenagers, many so young they still had *Acne vulgaris*, to dig themselves huge financial holes with no escape. Universities are at least partly responsible for their unfulfilled promises. Don't you think? We must also consider what liability they may share in compensating this lost generation where one out of six student borrowers must default today, a figure that only increases with time.

Removing this debt may not fully compensate for the bad hand they were dealt, but its consequent increase in economic activity will benefit all of us. It will boost the US economy beyond expectations. We are already giving bailouts of \$17 billion to obscenely rich people in corporate shadows. Right now, we need a mere 10% of that to pay for the write-off of student debt without hurting taxpayers and without putting any banks under. The savings over three years, for example from the resident visa program alone pays off all the student debt that exists today. Why support illegal aliens when we can help Americans?

One last point. It helps to recall that President Obama increased the National Debt by \$9.1 Trillion in just eight years, hoping to assure that illegal aliens had all the resources they needed to take as many American jobs as they could. This is six times the amount of debt owed by young Americans. Obama nearly doubled our debt. And what do we have to show for that? As is typical for the Obama years, the answer is frankly... nothing. By contrast, debt relief for our young Americans will be *visibly* positive in its impact.

So, let's say Congress wipes out all student debt because it is the fair thing to do. How do we prevent this from every happening again? For this, I thank my great friend, Dennis Grimes whose solution combines some skin in the game for Academic Institutions to the mix and thus assures that no student will ever carry debt unless the student is successful with a job in their field of study. Here is how the new loan system would work.

Nobody gets a loan unless the college or university agrees to take all of the risk of the loan. If the student is successful, she or he will pay reasonable amounts on a monthly basis. If the student is jobless, since the university vouched for the student, the school will owe all of the debt. Academic institutions are smart. They will stop lending quickly to students with very little prospects of being able to pay the loan back. If students do not maintain acceptable averages, they will be expelled, and the university will pay their balance. If they want to go to college in the future, it will be cash only. What do you think?

## **A Rigged System**

I am confident that President Trump would re-enfranchising America's youngest generation of adults by eradicating student debt and pay the balance via savings no longer spent subsidizing illegal immigrants.

In his own words, regarding recent graduates: "They go, and they work, and they take loans, and they're borrowed up, and they can't breathe, and they get through college and the worst thing is, they go through that whole process and they don't have any job." Trump has it

right. He sees how this rigged system has snuffed out the optimism of a bright generation that now gives way to cynicism and despair.

If I am elected as your Senator, I will help enact legislation that eradicates all Student Debt, effective immediately.

## **Boost Social Security Now**

Social Security is no longer publicly discussed by our duplicitous media despite the fact that seniors' issues need the spotlight now more than ever. The media derided the implied greed of SSR recipients who received a whopping two percent cost of living raise to kick off 2018, as if oblivious to the fact that the inflation rate for 2017 was nearly 11%. Not 2%, but 11%.

No wonder seniors are struggling when their cost for purchases goes up 11% and their COLA to make up for that is a mere 2%. How do I know that, and you don't?

There are several ways Americans can investigate how much government lies cost them each year. The government purposely underestimates the cost of living to deprive our elderly of a commensurate actual increase in earned benefits. One such method for you to use is to subscribe to the Chapwood index or you may explore [Shadowstats.com](http://Shadowstats.com).

Seniors unfortunately are running out of whatever financial cushions they may ever have had, and their plight today is dire. I encourage you all to research the degree to which government deceptions are resulting in these surreptitious deprivations.

After decades being saturated by our mainstream propaganda rags, it is refreshing to finally see the truth in print. The Chapwood Index reflects the true cost-of-living increase in America. It is updated and released twice a year. There the ruses or mis-directions of the government are not included in its pages. Instead, it truthfully reports the unadjusted actual cost and price fluctuation of the top 500 items on which Americans spend their after-tax dollars in the 50 largest cities in the nation.

It exposes why middle-class Americans—salaried workers who are given routine pay hikes and retirees who depend on annual increases in their corporate pension and Social Security payments—cannot maintain their standard of living. Plainly and simply, the Index shows that their income can't keep up with their expenses and it explains why they increasingly have to turn to the government for entitlements for supplementation.

Mainstream Democrats like Senator Casey and Nancy Pelosi exacerbate the situation by allowing use of even more inequitable methods such as the new chained CPI to help assure that Seniors can languish in poverty as soon as possible.

The problem of lacking transparency on true costs (true inflation) occurs because salary and benefit increases are pegged to the fraudulent Consumer Price Index (CPI), which for more than a century has purported to reflect the fluctuation in prices for a typical “basket of goods” in American cities — but which actually hasn't done that for more than 30 years

The middle class has seen its purchasing power decline dramatically in the last three decades, forcing more and more people to seek entitlements when their savings are gone. And as long as pay raises and benefit increases are tied to a false CPI, this trend will continue.

In the past, nobody was anxious to throw the proverbial grandma under the bus. Now, believe it or not, hordes of constituencies are lining up to be the first to fleece what should belong to her into the eternal abyss, never to be seen again. The list of offenders includes: Congress, government officials, professors in academia, the “greatest” economic advisors the world has ever known, and dejected stand-alone economists who failed to gain tenure at a university.

This group of elite misfits have formed a diabolical consortium to cheat seniors out of their due cost of living increases promised from the very day the SSR act was passed by Franklin Delano Roosevelt.

As the mainstream Democrats kowtow to cultural elites and financial institutions, turning their backs on the workers and middle-class that

defined their constituency for much of the 20th century, it is up to us to pick up the slack and fight for the rights of everyday Americans. When SSR was enacted, the president promised full dollar value throughout the years in order to ensure its passage in 1933. We cannot let this be undermined by the likes of Senator Casey and his allies under Chuck Schumer and Nancy Pelosi.

Many Americans are concerned that the Social Security program itself may not be able to sustain itself while others see the government cheating on the cost of living increases (CPI) thereby predetermining a life of squalor for seniors.

All successful societies throughout the ages, have maintained respect and dignity for their elders. Not only is cheating seniors a moral failure, it is a sign of a civilization entering an era of decay.

While seniors are losing their homes and many, for want of bread and milk, are on the verge of heading to the proverbial poorhouse or worse—the clutches of the Grim Reaper, Congress in 2018 pretended to care, giving a 2% raise, but then quickly snatched it right back in the dead of night via a Medicare Part B premium increase. This additional Medicare Part B charge for necessary health services for seniors was excluded from the cost of living calculations.

Thus, to pay Medicare part B, seniors are forced to use their “generous” 2% raises there, rather than to offset the costs brought forth from inflation in 2017 for which the 2% was intended. Since the real inflationary cost increases were closer to 11%, that means that instead of 9% that seniors were to endure, they accrued a full load of 11% in price increases. It’s easy to understand why this constant drainage of resources is unsustainable for a senior citizen.

## **How did we reach this point?**

Early in the administration of disgraced former President Bill Clinton, an economist named Michael Boskin, and Alan Greenspan, Chairman of the Board of Governors of the Federal Reserve System, devised a scheme that would allow for market basket “substitutions” to

artificially lower the cost of living and result in lower payments to our oldest Americans. Prior to their involvement, the consumer price index (CPI) was measured using the cost of a fixed basket of goods, a fairly simple and straightforward concept.

The identical basket of goods would be priced at prevailing market costs for each period, and the period-to-period change in the cost of that market basket represented the rate of inflation in terms of maintaining a constant standard of living. That was self-evidently fair and reasonable, and predictably resulted in seniors receiving annual COLA increases in tandem with the prices of goods actually increasing.

But Boskin and Alan Greenspan argued that when one item in the basket, for instance steak, became too expensive, the consumer would substitute hamburger for the steak, and that the inflation measure should reflect the costs tied to buying hamburger rather than the steak. Eventually, it became OK for the bureaucrats to replace hamburger with less expensive tuna and eventually because the protein value was the same, cat tuna replaced regular tuna in the market basket.

To further obscure the true cost of living, other items were selectively removed from the basket when the prices were high and then reinserted when the prices were low.

Many people have been familiar with this ruse. For example, a 1970s economic commentator named Barry Ritholtz joked that Greenspan's core inflation metric can more accurately be described as "inflation ex-inflation," meaning inflation after all of the inflation has been excluded. This demonstrates that the deception of seniors has been intentional, and it continues with a new notion called the chained CPI that will cost seniors even more.

The fact is that government has deceitfully stolen right from the pockets of our beloved seniors by denying them a fair cost of living increase. Some have even suggested that the government believes a natural limit exists on the criticism this could engender because over time, many of the complaints will be silenced by their deaths. Charming.

Walter J. Williams, an American blessing who operates the Shadowstats site has demonstrated that seniors have been stiffed by much more than just 125% and in fact should be receiving more than 4 times what their dollars were worth in 1980. That's \$450 instead of \$100.00. Any senior would love to have even a small proportion of that loss back.

I hope I have convinced you all that seniors have been ripped off and are being ripped off financially by their government. Congress is the real culprit.

So, what do I recommend for now? A gradual remedy. Since it would be difficult to give seniors the proper increase immediately needed to offset this quagmire caused by government malfeasance, my recommendation would be to approach it gradually, in a way that seniors would be somewhat pleased, and be able to live out their golden years in a more dignified manner.

For the next four years, the COLA boost that I'd recommend would be 15% above the real inflation rate. After four consecutive years, that should be sufficient to remove seniors from the on-deck circle they currently occupy directly outside the homeless shelter. That's all it would take.

Thank you for your attention on these important matters.

In conclusion, I must again express my gratitude for your consideration and any support as we work together to make America even greater.

God bless America and help us all make her better!

## Other Books by Brian W. Kelly: (amazon.com, and Kindle)

**COVID-19 Mask, Yes? Or No? It's Everybody's Recommended Solution!!!**
