The Winning Political Platform for America !!!

For any candidate wanting to win a national election—
A unique approach to American issues.

Running for office is a grueling, tiring, busy, and difficult process. There is always something to do. There is always someone who wants something from you. and did I say you are always tired. Yet, somehow, as a candidate, even on the bad days, you have to walk around with a smile on your face and a nice comment ready to come from your lips when you greet the next person.

Even if your purpose for running, is altruistic so you can help your city, state, or the country, and you want to be a worthy representative of the people, there are many who simply will not believe you. Good people endure the issues

So, here we are approaching the general election in 2018 and right now, I have the only idea in the world that actually solves the problem with illegal interlopers hiding in the shadows of the United States. Moreover, the winning Barletta platform's has a unique approach to solving Obamacare, and the long-due needs of Senior Citizens as well as millennials. The platform as you will see in this book, is designed with something good for everybody

The real concern many conservatives have is whether any political party is interested in a solution as Congresses of the past have been too content at having no solution as their solution. Democrats want everybody, including non-citizens to vote and before Trump, Republicans did not know what to do once they got power and so they were often disappointing. Isn't it great that Donald Trump is our President, and I have a feeling he would support anybody who adopts these winning platform points because the people would make sure they got elected.

Americans want a country that is all-American with Americans in the driver's seat; and they want their guests to be invited to the table. No drop-in-guests from other countries allowed. You won't want to put this book down as you learn the ins & outs of the best solution possible for immigration, Obamacare, Social Security, and College Loans for our nation's young.

I am working hard so that Congress and the US Senate will recognize the built-in power and the major attraction of the points here so they will not let you down on adopting this outstanding platform.

Thank you for reading this book. Tell Congress and the US Senate to adopt the unique solutions presented right here.

Acknowledgments

In every book that I write or edit, I publicly acknowledged all of the help that I have received from many sources. Some of these wonderful people are still on earth and others have made their way to heaven.

I would like to thank many people for helping me in this effort. I appreciate all the help that I received in putting this book together, along with the 178 other books from the past.

My printed acknowledgments were once so large that book readers needed to navigate too many pages to get to page one of the text. To permit me more flexibility, I put my acknowledgment list online at www.letsGOPublish.com. The list of acknowledgments continues to grow. Believe it or not, it once cost about a dollar more to print each book.

Thank you all on the big list in the sky and God bless you all for your help.

Please check out www.letsGOPublish.com to read the latest version of my heartfelt acknowledgments updated for this book. Thank you all!

In this book, I received some extra special help from many avid supporters of America including Dennis Grimes, Gerry Rodski, Angel Brent Evans, Wily Ky Eyely, Angel Irene McKeown Kelly, Angel Edward Joseph Kelly Sr., Angel Edward Joseph Kelly Jr., Ann Flannery, Angel James Flannery Sr., Mary Daniels, Bill Daniels, Angel Robert Garry Daniels, Angel Sarah Janice Daniels, Angel Punkie Daniels, Joe Kelly, Diane Kelly, Brian P. Preface

Here we are citizens in a truly exceptional country. Yet, even here in America all is not perfect. And, though this country as a whole is exceptional, individually, we are not necessarily exceptional. Winning candidates recognize that and are ready to help make America a better place to live regardless of their Party's Platform.

What is the secret for America. Well, one thing is for sure, if "we the people" as a group do not smarten up, things will get a lot worse and they may never get better again. Somehow Americans have consistently been electing inferior representatives without doing the due diligence necessary to assure these knaves want to serve the people rather than serve themselves. A candidate who adopts the platform points described in this book is worthy of your vote.

The best candidates, like most Americans want an America in which the people practice the old Christian maxim "love thy neighbor." It is time to stop the hate and get the work done for the people. That's why only good candidates sign up for the job.

Like Trump, good candidates love America and Donald Trump loves candidates that love America. One of the best things that has happened recently in America is that God intervened and gave us all another chance. He sent his beloved Son over two thousand years ago and though that helped the world, just recently, God saw that things do not stay right in mankind for too many years at a time.

This time, he found a playboy rogue out in the fields of fun and prosperity in America and he let this rogue know that he had a big job for him. Donald Trump, who did not need God's job offer as life was treating him pretty good already, had little choice but to accept God's offer and so he ran for President of the US and now he is here with us battling every day on our behalf.

We the people better not blow this opportunity to do the right thing for God. Stop the hate! Elect a candidate who adopts the platform points in this book and make sure they are for the Trump agenda and they want to help Donald Trump complete God's mission for America.

In this book, your author Brian Kelly takes a solid look at the platform points that a good candidate must have for an effective winning campaign in order to attract the Trump voters. To make the candidate's platform stage the candidate for a big win, and to help Trump's mission become unstoppable, your author added four new platform points to a normal set that good candidates carry. These are big and powerful and helpful to seniors and young people alike.

They are explained in detail in this book. The platform points are the healing balm for a lot of ills that are plaguing our country right now. The winning candidates for Congress and the US Senate are the types of leaders to use these new ideas to solve a lot of big problems.

You are going to love this book since it is designed by an American for Americans. Few books are a must-read but *The Winning Political Platform for America* is a book you want to have, to read about the great methods a great candidate can use to solve our problems.

The subtitle is *This is a unique approach to solving the big problems in America*. We expect that this short-run book will quickly appear at the top of the country's most read list. If we do not gain back the greatness of our America, with the right people representing us, we may be again stuck with knaves such as Pennsylvania's Bob Casey Jr. and that means nothing good will happen for another two to six-year election cycle. Let's solve the problems now with a great candidate with a great platform, while we still have a great leader at the top of the country.

Sincerely,

Brian P. Kelly, Editor

About the Author / Editor

Putting this book together to help candidates for the US House of Representatives or for the US Senate has been a big treat for me.

Brian W. Kelly retired as an Assistant Professor in the Business Information Technology (BIT) program at Marywood University, where he also served as the IBM i and Midrange Systems Technical Advisor to the IT Faculty. Kelly designed, developed, and taught many college and professional courses. He continues as a contributing technical editor to a number of IT industry magazines, including "The Four Hundred" and "Four Hundred Guru," published by IT Jungle.

Kelly is a former IBM Senior Systems Engineer and IBM Mid Atlantic Area Specialist. His specialty was designing applications for customers as well as implementing advanced IBM operating systems and software facilities on their machines.

He has an active information technology consultancy. He is the author of 179 books and numerous technical articles. Kelly has been a frequent speaker at COMMON, IBM conferences, and other technical conferences.

Brian was a candidate for US Congress himself from Pennsylvania in 2010 and he brings a lot of experience to his writing and editing endeavors.

Chapter 1 US Candidates for American Values

Remember the survival of America is at stake.

**We Are
REPUBLICAN
Because...**

- We believe the strength of the nation lies with the individual and that each person's dignity, freedom, ability and responsibility must be honored**
- We Believe in equal rights, equal justice and equal opportunity for all, regardless of race, creed, sex, age or disability.**
- We believe free enterprise and encouraging individual initiative have brought this nation opportunity, economic growth, and prosperity.**
- We believe government must practice fiscal responsibility and allow individuals to keep more of the money they earn.**
- We believe the proper role of government is to provide for the people only those critical functions that cannot be performed by individuals or private organizations and that the best government is that which governs least.**
- We believe the most effective, responsible and responsive government is the government closest to the people.**
- We believe Americans must retain the principles that made us strong while developing new and innovative ideas to meet the challenges of changing times.**
- We believe Americans value and preserve our national strength and pride while working to extend peace, freedom and human rights throughout the world.**
- Finally, we believe the Republican Party is the best vehicle for translating these ideas into positive and successful principles of government.**

No man is an island

More and more Democrats from Pennsylvania such as my wonderful sister-in-law Diane, became or are becoming Republicans so they can be part of the big red wave that is making America great again. A vote for Bob Casey Jr. does not get us there. The list on the first page of this chapter is a great set of American values to remember. They are the values of (candidate name). Thank you for reading them.

(candidate name) is pro-life, and he is against selling baby parts and live brains, though some Senators, called incumbents by the press, obviously do not feel that babies are created by God.

Deep down most Americans are pro-life. Who wants to kill babies when they are the most vulnerable—before they have even gotten to make their first goo or gaw?

I do not believe in protecting smelts and bugs and protozoa if it causes harm to human beings. God made human beings with dominion over all life, and though we must be just caretakers of this awesome responsibility, it should not mean that humans must starve or be cold or freeze in the wintertime to please somebody's twisted environmental agenda. (Candidate Name) supports Donald Trump's EPA and does not want the US to return to the days when turtle eggs were more important than yet-to-be born children.

In many ways some of the lofty ambitions of the Democratic Party leaders to create an equal world where there is no injustice has placed human beings per se in the back seat and has elevated non-humans to a status not intended by God

Moreover, with 7.44 billion people in the world, it is impractical for Americans to get jobs to support them all when they come to America and take our jobs. (Opponent's name) Casey would like their votes whether they come legally or not. You know that at least half of the 7.44 billion would come here if we sent them an invitation or we were an open borders country, as (Opponent Name) would have US.

People in places in the northeast such as Scranton, PA grew up with coal stoves and coal furnaces to provide heat and cooking in our homes. Coal served us well. A Senator from the Northeast despite how much coal helped the area, and despite living in a coal region, is against coal as are all Democrats. Former President Obama hated coal

What good is it to freeze in the winter simply because an EPA regulation says coal is banned. That's why Trump got rid of any regulation that would provide US with less power and less winter heat.

The coal stoves in my living room and kitchen did the job when I was growing up and they did the same in my wife's home. We are still healthy. Plus, we (the USA) have plenty of coal for the rest of the world. In fact, just recently the United States is now the world's largest energy exporter. That's part of the new Trump US economy.

Why shut off the spigot? Why? It makes no sense. China had been killing us economically using coal! We export coal to China. What do they know that we do not?

Don't you think that protecting unborn babies is more important than protecting anything else in life? Who is not

pro baby? When was the last time you were at a deathbed and heard the grieving family praying to the government?

Though recently I have come to like the philosophies of populists and conservatives such as President Donald Trump, Ben Carson and Ted Cruz. I am not for communists such as Bernie Sanders nor for wannabe communists such as Hillary Clinton. Communists have failed everywhere.

There is no good choice on the Democrat side. Their platform is anti-American and anti-white and anti-baby. The opposition candidate wants a good spot in the Democratic Party and so he aligns himself with Nancy Pelosi and Chuck Schumer, and Maxine Watters; not John Q. Public.

Trump is for keeping businesses strong but he also thinks that American corporations have an obligation in exchange for the privilege of operating in America to care for their employees and to help do everything in their power to protect and create American Jobs.

Hiring illegal aliens must be verboten!

Republicans and many rich Democrats even prominent Democrats such as John Kerry and the Heinz Company have no problem taking jobs overseas. Additionally, they have no problem trying to reduce the American wage to as low as possible by bringing in illegal foreign workers to force the wages down.

Democrats do not want to enforce our immigration laws. They see a huge voter pool in those who are to be granted amnesty. If foreigners can live legally within our borders according to our laws, I am for that also. But, American citizens, that's us folks, must come first instead of last.

Chapter 2 Mr. Smith Goes to Washington

Jimmy Stewart from the movie, *Mr. Smith Goes to Washington* can be thought of as a guiding light for the Barletta campaign. The people like Jimmy Stewart and the honest guys like Jefferson Smith are indispensable for a great democracy / republic.

Mr. Smith Goes to Washington

Ladies and Gentlemen, the best candidate there ever was was a character in a great movie. To get your juices flowing for a great candidate in 2018, he would like to present himself. “My name is Jefferson Smith and I am going to Washington—if you select me of course.”

The candidate who adopts the platform points described in this book, like Jefferson Smith, will have the best chance to win their US Congressional or Senatorial race this year or any year.

Jimmy Stewart is one of your author’s favorite actors of all time. He is as Americana as it gets with the perfect touch of honesty that makes even men admire the actor and the character the actor is playing. My favorite movie of all time

is "It's A Wonderful Life." It gets me every time. Remember the big pot of cash the neighbors brought in to George Bailey, so he could keep the Building and Loan going. Well, that's how I think America should be. Don't you? Every hard-working American deserves a break.

What George Bailey did not need was the government stealing from his neighbors so that he could go to college and to heck with Pottersville. Well, it would have been Pottersville if George had not stayed to help all the people in Bedford Falls with his dad's Building and Loan Company.

Government intervention creates Pottersvilles and good neighbors create the likes of Bedford Falls. Let's let good people be good people again rather than taking so much from them that Mr. Potter, who acts like a leader of today's Democratic Party is the only one left with any money. A great candidate is like a George Bailey in our midst and a poor candidate would be our very own Henry F. Potter.

Mr. Smith Goes to Washington exudes the same emotion from the viewer as *It's a Wonderful Life!* It was another of Frank Capra's big hits and Jimmy Stewart as Jefferson Smith is as down to earth as George Bailey. I can see a great Senator or a Great Congressman beating all odds, and winning election in the same fashion as Senator Jefferson Smith did for his constituency. The platform points discussed in this book will help any candidate win election and they will help her or him save America.

Today's great candidates are running for the US Senate or for Congress to help fight the same type of corruption that Smith faced when he went to Washington. Such candidates are up to the task and are ready to fight to make America,

America again. With Trump as President, they will have a great man to help accomplish the task right along with them.

There is nothing separating a great candidate from his chance to be our combination George Bailey and Jefferson Smith other than the coming general election. That's where the general public comes in. For the sake of state and country, I sure hope you choose to vote in a candidate who adopts the platform points as defined in the rest of this book.

And so, will you indulge me please as I say again on behalf of whoever emerges as a great candidate for Congress or the US Senate, the name is "Mr. Smith, and I am going to Washington. I can't get there without your help. I just picked up a major league SWAMP Drainer at the local hardware store so that ought to help me."

Think of the corrupt conditions that existed in this famous movie as Mr. Smith, played by Jimmy Stewart. was little more than a bumpkin, when he first went into the Washington swamp of iniquity. But, like a great candidate for public office, he was tough of character.

Smith was the naive and idealistic Jefferson Smith, the leader of the Boy Rangers. In Washington, Smith soon discovered many of the shortcomings of the political process as his earnest goal of a national boys' camp led him to a conflict with his state's corrupt political boss, Jim Taylor. Jim Taylor ruled the SWAMP in the days of the film.

Taylor first tries to corrupt Smith and then later attempts to destroy Smith through a made-up scandal. Smith conducts a filibuster and finally sways everybody to pass the Boy Rangers Bill. It was heartwarming and to the point.

Please remember when you vote that a great candidate thinks like Jefferson Smith. Get the CD for the movie when you can and expect that it will make your eyes go moist. Any great candidate who expects to win should be like Mr. Smith if elected. It's time for inferior candidates to work at home. Send them home, please.

A great candidate would hope that when you send him to help Trump clean out the rest of the SWAMP, that there are approximately 434 additional like-thinking Representatives or 99 like-thinking Senators on Inauguration Day January 2019. That is a big wish, about this election and it is what any great candidates hopes that is what he finds when he checks in to his assigned seat in the US Senate.

I want to thank you all again for reading this book and considering a candidate who is adopting the platform described in the subsequent chapters. You will be very pleased. Thank you very much.

Chapter 3 A Great Candidate On the Issues

Very optimistic

In Part II of this book, we lead off with a humdinger of a speech, the first part of which we call the Preamble. This was originally written for a specific candidate by your author and it is designed to get the juices flowing for all potential senators and Congresspersons and Trump constituents when delivered at a rally. It puts the importance of the campaign in perspective.

This was the original preamble to the major winning platform points that were first prepared as an hour-long speech. They are discussed in subsequent chapters of the book. To make them more appropriate for a book, we took

the speech and broke it down into component parts beginning with the preamble and then the rest of the speech which introduces and then explains in detail what would be the unique election-winning platform points for the candidate's campaign.

And, so instead of one huge speech in one huge chapter, we show one chapter for each of the major campaign points, which will form the basis of a big-win campaign. Your author believes that together, all chapters together would serve as the best winning speech for all federal campaigns across the country.

Before I go over the unique platform points as recommended by your author, I would like to generally share the opinion of a great candidate on generic issues.

An expanded set of responses to ON the Issues is given on a Senate candidate from PA's information ontheissues.com -- web site URL is here:

http://www.ontheissues.org/PA/Lou_Barletta.htm.

This set of positions on issues is where you want to be if running for public office in the US. Lou hits a home run on the specifics. Below, we show general issues and a general response to the issue.

ADDITIONAL NOTES ON ISSUES / SOLUTIONS

Defense

Be committed to protecting the men and women serving our country and the many military installations in the US.

Economy & Spending

Our nation faces a serious debt problem. There is no question that the federal government is on an unsustainable spending spree. If we are serious about achieving long-term fiscal responsibility, we must address fiscal accountability. We must target government spending.

Education

In today's increasingly global economy, American students need the skills necessary to succeed. This might be one of the greatest challenges in Congress; to support state and local governments in providing a quality, well-rounded education to all our nation's students.

Energy

The US is now the largest energy producer in the world just two years post Obama. We need to continue the Trump program to fuel our country's energy needs.

Gun Rights

The Founding Fathers wrote the Second Amendment to the U.S. Constitution to enshrine the pre-existing right of individuals to keep and bear arms. It states: "A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed."

Health Care

A great candidate would be committed to preserving and protecting our nation's healthcare system. He or she would have to understand the challenges that all Americans face

when it comes to receiving healthcare benefits for themselves and their families.

Immigration

There should not and cannot be a plan to offer amnesty to the millions of illegal aliens present until we secure the borders.

Jobs

From his first day in office, a great candidate would focus on getting Americans back to work.

Transportation

Roads, bridges, and other transportation infrastructure in Pennsylvania, and across the country, not only connect our communities, but also create the economic engines that transport the goods and services produced by our U.S. businesses, farms, and factories. U.S. products have long benefitted from transportation cost advantages that give our goods and services a competitive edge in the global marketplace.

Veterans

Our nation's veterans have provided an invaluable service to our country. However, their unwavering dedication and bravery to defend our liberty often comes with great sacrifices. I will continue to work diligently to ensure that our veterans receive the benefits they deserve.

PRO-LIFE

A great candidate would be pro-life and would protect the sanctity of life.

Part II The Winning Political Platform

Part II Objective

The objective of Part II is to provide a cluster of chapters that together provide constituents an understanding of the issues resolved by the highly unique winning platform points that are revealed herein. After this introduction to Part II, five chapters follow with the final four chapters providing the unique platform points that will win the candidate the election and will help all Americans immeasurably

An outline of the chapter sequence in Part II is as follows:

- Chapter 4 Introduction and brief campaign issue overview
- Chapter 5 Preamble (A generic speech for the candidate to consider)
- Chapter 6 Obamacare One Line Repeal and Replace.
- Chapter 7 Illegal Immigration. Solve the problem for those living in the shadows, who want to live in America or for those who would prefer to be paid to go back to the home country.
- Chapter 8 Social Security's Cost-of-Living Fraud—Boost Social Security Now!
- Chapter 9 Student Debt Crisis—Wipe Out All Student Debt Now!

Chapter 4 Intro & Brief Campaign Issue Overview

Your author Brian Kelly has provided his research in this book and it is now being presented in this format for the very first time ever so that all the people of America can read it.

In recent days with the allegations brought forth by the Democrats using what I would call “people serving as props” to derail the Republican Nominee for Supreme Court Justice, my party, the Democratic Party has stooped to a new low. Even Democrats cannot believe what their leaders are trying to get the people to believe in the eleventh hour. It is disgusting. I did not know I could like Lindsey Graham so much but after his speech on September 27, he is my new Senate favorite.

Democrats don't want Kavanaugh because he is not a socialist progressive. We get it. But, why do they have to try to destroy a good man with a family for half-remembrances from 35-years ago while protecting Cory Booker and Keith Ellison that just happened recently. Why? It's just dirty politics.

President Trump got in the act before the hearings asking questions most Americans are asking about the three-person charade. He recently tweeted that he had "no doubt that, if the attack on Dr. Ford was as bad as she says, charges would have been immediately filed with local Law Enforcement Authorities by either her or her loving parents." There were no charges filed and she cannot recall the place or time, how she got there and how she got home and her only four witnesses say they were never at such a party.

For years Brian Kelly has written book after book about how to improve America. He has written 179 books in total. The information in this book has previously been submitted to various Republican Campaigns with the hope that they can use the information and the presentation style to convince the rest of Congress to take the action outlined in the specific winning platform point chapters.

You may not be overwhelmed but you will not say, when you are introduced to all that we need to solve so many important American issues: "Is that all there is?"

As a result of discussions prior to this book being ready, the candidate has been provided with solutions in the form of four unique platform points and major descriptors to add to

his full set of campaign platform points as discussed in Part II.

With this newly completed platform, I believe that all the great seniors in America as well as the young and other constituencies addressed in the four winning platform points can expect a lot of good things when they elect any candidate who espouses the winning points brought forth in this book.

Seniors have become Democrat punching-bag again.

I have studied the plight of seniors in 2018, such as more and more losing their homes and it is appalling. The recommendations in the winning platform points will stop this from happening in the future. Meanwhile Democrats are cooking up another batch of lies and blaming Republicans. Same ole! Same ole!

We know that the Democrats are not trying to help seniors, just scare them. Too many some seniors have been intimidated into paying their property taxes rather than buying nutritious food for meals. Why has this happened recently?

After over thirty years of low-balling on cost of living SSR increases, seniors can no longer afford to live on their pensions. Democrats have enabled fraudulent cost of living estimates to reduce senior's benefits. They advocate deceptive methods such as the chained-CPI and the CPI-W which for the last thirty-years and more have been used to low-ball the SSR COLA calculations. The plan recommended for SSR eliminates this fraud.

You may or may not know that both the chained CPI and CPI-W and a few other methods have been the basis for the SSR COLA for seniors. These have been adjusted downward for years and more seniors are now at the poverty line or below. The SSR solution is presented in Chapter 8.

A normal human being unfamiliar with government antics designed to hurt seniors in their attempts to live healthy lives would ask, “Why not just use the actual inflation rate instead of the mumbo jumbo from the demented minds of coffee breath college professors?” The question begs to be answered.

How did it get this way? We will tell you more in Chapter 8 but think of a bunch of bearded light-minded coffee-breath academicians advising the Democrat Party to stiff seniors on the inflation rate. I know this for a fact because for twenty-years I was on the faculty as a peer professor at Marywood University, and Misericordia University, both in Pennsylvania. It’s even worse than you would think.

As you proceed through Part II and through the end of the book, you will see that Brian Kelly has written a preamble in Chapter 10 to precede the platform points discussions. It is a generic speech preamble that can be used by anybody wanting to run for national office.

The first part in Chapter 5 is the preamble and the second part, which is shown in Chapters 6 through 9, provide the specific winning platform points and a lot of other pertinent information to strengthen the arguments presented.

I previously sent an earlier version of the entire speech, complete with platform recommendations, to certain candidates who are running in federal elections across the country.

I am sure you will like the recommendations as your annual SSR increment on a yearly basis will come in at a much more realistic number than the 2% received in 2018.

How does 11% v 2% sound? The recommendation is better than that. It makes seniors whole again.

Soon you will read The Preamble to the platform points speech (Chapter 6). I am encouraging everybody in Congress and the Senate to deliver this speech to their constituents at a convenient venue in their home areas.

The Preamble presented in Chapter 5 is designed to get the juices of constituents flowing as it helps for everybody to know what this election is all about. It contains a generic introduction to the winning platform points and is designed to be delivered with the major innovations. You will see that it rolls right into the platform points, which I am convinced are meaty enough that they will carry the election for any candidate that adopts them.

IMHO, adoption of these platform points guarantees a sure-win for any national candidate. That is how important they are.

I hope you all enjoy reading The Preamble in the next chapter and the entire speech with all four major platform points presented in the last four chapter. If you feel like screaming and shouting “finally!” as you read this, feel free.

Chapter 5 Winning Platform Points... The Preamble

Here it is: Preamble: Suggested Speech:

Fellow Citizens,

Language is inadequate to express my gratitude for the privilege of submitting before you my candidacy to represent the fine people of (location) as your next United States (Senator or Representative to the Congress) . I am ready to

serve all the people and I promise that will be my 100% objective when elected.

I would also like to thank you for the fine welcome, which you all have extended to me on this occasion. As I look out in my mind's eye, I see a vast sea of human faces who share a common interest, as do I, about the greatest questions of our times. Beyond occasionally agitating the mind, they now dominate the concerns of all U.S. citizens, underlying the foundations of our free institutions. Let us all make sure that freedom never becomes just another word for nothing left to lose.

The reaction to my candidacy by the people of (location) has been quite heartening. We have a president whose interest quite simply is to "Make America Great Again." Who can be against that? By contrast, the embedded establishment and liberal leftovers in the SWAMP, have no interest in performing what is good for our country.

They are doing their best to undermine our president, without any repercussions, aided and abetted by a corrupt media, instead of building bridges to work for the good of all Americans, especially Americans from (location)

It is no longer acceptable for a Democrat or a Republican to be a Never-Trumper. He is our president. Donald Trump is our president and his platform is my platform and when elected, I hope the extras in this winning platform that I introduce in this speech, become part of the Trump platform for America.

We all know that "Never-Trumpers" will never hold office again. Democrats such as (opponent's name) simply adore

the establishment's impediments to the president's agenda along with a media whose interests are as adverse to the American people as the British press was during Colonial Times.

The Democrats and the Republican Never-Trumpers in the Senate, House, and the federal bureaucracy and the degenerate mainstream press have done everything they could possibly do to thwart the will of the 62,979,636 people who voted to clean out the SWAMP in 2016 with a fresh new presidential administration.

The legendarily venal Hillary Clinton lost the election after the public saw through her charade; yet she still will not accept her defeat. Instead, she continues to parade around the world blaming everything from her own adoring fans at The New York Times, to white women like her, to the DNC, and probably even to the cows in Wisconsin, a state she famously lost after taking it so for granted, she never visited.

She even blames the FBI and it never occurs to anyone that the best way to avoid an untimely FBI intervention in a political campaign is to not run for president while under federal criminal investigation. And all the while, during the last presidential campaign, (opponent's name) stood by submissively, applauding, brownnosing, and enabling this farce of a candidacy. Why? For what good reason? Was it for Hillary's 2018 endorsement? She's done nothing for (location); but then again, neither has (opponent's name).

It is time for the country to move on. Hillary lost, now get over it. We've had (number of) years of (opponent's name)—way too many—and that's about as much as any

man or woman in America can take. For (opponent's name); it's time to go.

I am running for the (US Senate or House of Representatives) to reclaim this seat which rightfully belongs to the people, not the extrinsic interests controlling our politicians who would tear the Constitution in half without hesitation if it would please their donors and cheerleaders in the mainstream media.

Despite the shameless lack of virtue that defines the top echelons of our government, our country itself is replete with honest citizens who would be humbled to work on behalf of their fellow countrymen and women. That is why I, (candidate's name), am running for the US Senate against one of the biggest icons of mainstream mediocrity and corruption, (opponent's name).

(opponent's name) caters only to the whining anti-Trump crowd who are under the control of Maxine Waters. Waters is having a renaissance nationally with her "damn Republicans wherever you see them rhetoric," she now thinks she can turn every trivial post on Facebook into a new Cuban Missile Crisis.

Despite the voters in even his home state rejecting the rank duplicity of former Secretary Clinton and her bleak vision of hopelessness and sovereign state decline, (opponent's name) never lifted a finger to help the people who support our president, despite the fact that we outnumber the opposition right here in (location). But to him-- that's (opponent's name) folks; we do not even exist.

(opponent's name) is known as a do-nothing (Senator or Congressman) who would prefer to turn the US into a globalist abyss rather than support its sovereignty or its people's dignity. Meanwhile, our great president is trying to find everybody something good in today's economy—such as a high-paying job.

The Trump method is to make it easier for companies to conduct business in our country. I, (candidate's name) intend to help President Trump protect us from such parasitic interests. What are (opponent's name) 's intentions? For (#years) years he showed the people he has nothing to offer.

If there is one principle most cherished in all free governments, it is that which asserts the exclusive right of a free people to form and adopt their own fundamental laws, to manage and regulate their own internal affairs and domestic institutions. That is under constant attack by (opponent's name) and his legions of Clinton dead-enders. Why Democratic leaders all of a sudden hate the Constitution is something even rank and file Democrats do not understand.

(opponent's name), a friend Hillary Clinton still thinks (people of location) are part of a basket of deplorables while (opponent's name)'s other high-profile buddy, Barack H. Obama, even at the peak of (opponent's name) support for the former president, found it easy to disrespect the people of our state.

Electing representatives of the people is not a triviality, but rather the expression of the most fundamental right of self-government. Without it, of course, this great United States

would be like any other country in the world. It would not be the exceptional republic, which we the people have enjoyed since our own Declaration of Independence.

To say that I, (candidate's name) am honored to be here today presenting my candidacy for the (United States Senate or Congress), would be the understatement of the ages. Thank you for your reception and hospitality. I assure you that if elected, I will provide (location) and the United States of America the best representation in the (US Senate or House of Representatives) of which I am capable. You can be assured of that.

End of Platform Preamble

Introduction to Winning Platform Point Chapters

We have many issues today of which the people are concerned. The idea in this coming discussion is to limit the specific solution topics to four prominent areas of concern. Your author is asking any candidate to adopt in full measure the points brought forth in the next four chapters. This would entail sponsoring legislation and informing the public of their support for the important items discussed in these chapters.

The reward for the candidate will be that he or she will win the election by giving the people exactly what they want.

The address contained in the next set of chapters uniquely highlights each of the four winning platform points as no other candidate for any US office has ever been able to do. I hope you will find the elements of this platform a welcome

refreshment and inclusive of precepts that we all embrace and recognize as sincere and necessary.

The author's format in fashioning these arguments for adoption is to present each issue by area of concern and then offer the specific solution, which is part of the unique platform as promised. I encourage you to read and digest all of the brannigans as presented and after reading, you might just want to read them again.

Even if you are familiar with these points, the solution to each point is unique and the arguments are designed to win the people to the side of the candidate—(candidate's name). It is necessary for candidates to feel the support of the people when bringing forward the necessary legislation.

#1—Obamacare One Line Repeal and Replace.

#2—Illegal Immigration. Solve the problem for those living in the shadows, who want to live in America or for those who would prefer to be paid to go back to the home country.

#3—Social Security's Cost-of-Living Fraud – Boost Social Security Now!

#4—Student Debt Crisis Wipe Out All Student Debt Now!

Your author is asking for the candidates to put forth legislation when elected to help address all four issues above as well as to provide full support for the other platform points as outlined in Chapter 3 as well as the overall Trump agenda.

As we have discussed, the opponent fighting (candidate name) is not a friend of (location). (opponent's name) has been in office for at least (# years). For all of these years, he/she has been voting against all of the standard points in

the Trump agenda and has indicated that he will miraculously decide by November to back the pro-American agenda fostered by President Trump.

Over the next four Chapters (6 through 9), let's discuss these unique winning platform points—one by one, starting with Obamacare.

Chapter 6 #1 Obamacare—One Line Repeal and Replace.

Much to the chagrin of working Americans, Obamacare is still one of their top issues. They expect those whom they elect to solve this problem once and for all.

Thus, the first problem on the list is #1 because over 54% of Americans say that the availability and affordability of healthcare is their #1 issue. Despite Obama's empty promises from the past, many of us cannot keep our favorite doctors nor can we retain an affordable health plan that meets our needs.

Whatever good you hear about Obamacare from Democrats is not true. What is true is that premiums are up from a basic policy in 2009 of \$300 to about \$3,000 today for a "Bronze" policy. That's a 1000 percent increase. The people have learned that unless you are getting healthcare for free, most cannot afford Obamacare.

The costs have been so prohibitive that many Americans have forestalled doctor's visits with often grave consequences. We all know that despite the remedy that (opponent's name). will again offer you. They know that Obamacare is a disaster, but they have no problem lying to you that it is good when it is not.

He / she exempted themselves from Obamacare because it stinks so bad. They are instead enriched by the Federal Government to have a healthcare plan independent of Obamacare. So, they do not have to care about you and their actions show that they don't.

My solution to Obamacare begins with clarity and definitive purpose. We start with a one-line repeal. "Obamacare and all of its attributes is hereby repealed."

The beast is thus vanquished and has no legal right to ever reappear. Following the repeal, we envision a plethora of competing less expensive alternatives provided by the marketplace without current tyrannical government controls.

Yes, folks, it really is that easy

Chapter 7 #2 Illegal Immigration

There are two solutions in this one winning platform point to solve illegal immigration. Pay attention, please as the solution is so logical, that you won't believe nobody has yet to recommend it. The two points are as follows:

1. Resident Visa Plan
2. Pay to Go

In February 2004, the late Arizona Senator John McCain recognized via Border Patrol reports that nearly four million people crossed our southern border "illegally" each year following the big Reagan amnesty in 1986. Nonetheless, the fraudulent press still insists that the total count of illegal immigrants residing in the United States is stagnant at eleven million, a mathematical impossibility if Border Patrol figures are to be believed.

And of these millions of foreigners, countless amounts, most using fake ID's, receive full welfare benefits while, contrary to popular mythology, very few actually work in agriculture.

There may be as many as 60 million and perhaps more illegal foreign nationals living in the United States today. Nobody can prove me wrong on that number. While some individuals in this group may contribute to our society, on balance this is outweighed by the group's overall negative effect on our resources, whether they be drained by government assistance, lost employment opportunities for American citizens, or criminal offenses.

It is amazing how effective the fake-ID business is in turning illegal aliens into fake citizens who are thus enabled to enjoy American rights, benefits, and privileges.

According to the 2011 GAO report entitled "Criminal Alien Statistics," the cost of crimes by illegal foreign nationals is \$8.1 billion per year, and that's without even considering the incomprehensibly larger emotional toll this takes on families whose priceless loved ones can never be replaced.

If elected, I (candidate name) will introduce two pieces of legislation that will solve this problem of illegal residents in the shadows once and for all. Besides many other benefits, it stands to save the U.S. over \$1 Trillion per year in addition to a major reduction in crime. The two solutions are known as *pay-to-go* and the *resident visa*. Let's look at them so we all can understand how they solve the problem permanently.

Pay-to-Go

Most Americans are unaware that it costs taxpayers \$30,000 per year on the average, per illegal alien in America to provide them with welfare benefits that would make them pleased. Each illegal resident and their dependent children, who sign up for Pay to Go, on the way back to the home country, will receive a one-time \$20,000 stipend plus the individual expense back to the home country.

With a cost of \$30,000 per year to support unwelcome interlopers from the US Treasury, a taxpayer savings of \$10,000 begins year one and continues at \$30,000 per year per person forever afterwards. Not a bad deal for Americans and an even better deal for aliens. We owe them nothing but paying them one time to save dollars forever is a good idea worth considering.

The program therefore quietly accommodates family reunification in the home country. Democrats won't call it family reunification, but it really is.

A family of five for example, could do quite well back home after receiving \$100,000 in stipends from Uncle Sam. Reuniting families in their own countries is a good idea for them and for America. Why would they want to live in a strange country when they could live like Kings in their own country?

For US taxpayers, to repeat, the savings in welfare means there is no cost in year one and in year 2 and every year hence, the savings equal \$30,000 for each person who "goes." back home, never to return.

Moreover, there is no settling issue as the returnee to the home country knows how to live there and does not create an issue for their home country of record. e

Resident Visa

Those illegal interlopers, who do not want to leave the US, have another option under the plan. US citizens are kind to offer both of these plans. An illegal interloper can sign up, be vetted, and eventually be approved for a *Resident Visa*. The visa will cost \$200.00 to cover vetting in year one and it will be renewable every year thereafter for a \$100.00 renewal fee. It is not permanent and there is no guarantee that a visa holder who misbehaves can stay in America.

To get a *Resident Visa*, a former interloper would agree to all stipulations after registering. At the end of the registration process, US officials would know where every former illegal interloper is living. That is a major advantage as we do not have this information even today.

Stipulations would include full initial vetting; onsite renewal vetting; keep existing jobs; new jobs for Americans first; no voting; no citizenship; no welfare and no freebies of any kind.

Everybody is not automatically approved. After vetting, those not approved for the resident visa program may use the *Pay-to-Go* program to aid in their relocation back to their home countries where they are known by all their friends.

As the program would, by definition, entail 100% participation from illegal residents, estimates are as high as

\$500 billion per year cost savings in total for those who choose to go or for those who choose to stay using the no-welfare *resident visa*. Another \$500 billion will be reclaimed over time for the lost wages of Americans. Additionally, if we can figure a way for countries to reclaim their criminals, there is another \$8.1 billion to be recovered.

Once the program is in effect, there would be no more illegal aliens in the country. Think of that as a major benefit. Everybody would be legal, and we would know who they are. They would all have agreed to no welfare benefits or they would have left under the *Pay-to-Go plan*.

Because *Resident Visa* holders would be legal, the shadows would be eliminated. There would be no more shadows in America. There would be no need for DACA and no need for Sanctuary cities Let me repeat that.

All issues with DACA would be over and Sanctuary Cities would be a thing of the past because there would be no shadows and no illegal interlopers.

Two additional programs are the part of my platform that I would now like to introduce. Like the *resident alien* and the *Pay-to-Go plan*, no other candidate for public office includes these great programs in their platform. You are going to love these.

These two new programs offer the promise of a positive effect on the health of the economy and both will contribute to improving life for American citizens of all ages to live well in this country. The first is about offering Social Security recipients increased benefits to make up for fraudulent cost of living increases based on an intentionally

fraudulent consumer price index perpetrated upon seniors for the past thirty years. The second platform point is about wiping out all student debt. These are presented in Chapter 8 and Chapter 9.

Chapter 8 #3 Boost Social Security Now!

Social Security is taboo to discuss in political campaigns anymore because Democrats no longer have a love affair with seniors. It is no longer publicly discussed by our duplicitous media despite the fact that seniors' issues need the spotlight now more than ever. Of course every Democratic candidate is using the time-tested liars playbook which includes scare tactics to intimidate seniors about losing everything.

This is the same Democratic Party that was throwing Granny off the cliff just a few years ago. Now, they simply point at their candidate's opponent and they say that he wants to lower Social Security. Only a fool would want to do that, but Democrats know that play has worked in every election because Democrats deep down want to believe the lie.

The Democrat-controlled media thinks seniors are greedy. They all in unison derided the implied greed of SSR recipients who received a whopping two percent cost of living raise to kick off 2018. Democrats are obviously oblivious to the fact that the inflation rate for 2017 was nearly 11%. It was not 2%, but 11%.

No wonder seniors are struggling when their cost for purchases goes up 11% and their COLA to make up for that is a mere 2%. These are 2017 cost of living figures. How do I know that, and most don't? It is not popular for Democrats to tell the truth or to provide any facts when they implicate the Party in the travesty.

By the way, if Obama had his way with the chained CPI, a contrivance he supported against his advisor's wishes, it would be even worse. Seniors all know that the former president gave zero cost increases five times during his presidency showing all Democrats lack-of-love for seniors.

In 2014, the president pushed hard for advancing a surreptitious reduction of Social Security benefits by using the fraudulent chained-CPI mechanism. Obama's dubious market calculations would have cost retirees more than 2 percent of their incomes, Chained-CPI is a Democrat innovation. Yet, today all Democrats are blaming the chained CPI on Republicans. That of course is a lie but try to get a Democrat to believe that it is not true.

There are several ways senior Americans can investigate how much government lies cost them each year. The government purposely underestimates the cost of living using CPI-W or chained CPI to deprive the elderly of a commensurate actual increase in earned benefits. One such

method for you to use to calculate your personal loss to government fraud each year is to subscribe to the Chapwood index or you may explore Shadowstats.com. In these sources there is proof-a-plenty, and the information is not government propaganda.

Seniors unfortunately are running out of whatever financial cushions they may ever have had, and their plight today is dire. I encourage you all to research the degree to which government deceptions are resulting in these surreptitious deprivations.

After decades of Americans being saturated by our mainstream propaganda rags, it is refreshing to finally see the truth in print. The Chapwood Index reflects the true cost-of-living increase in America. It is updated and released twice a year. There, the ruses or mis-directions of the government are not included in its pages. Instead, it truthfully reports the unadjusted actual cost and price fluctuation of the top 500 items on which Americans spend their after-tax dollars in the 50 largest cities in the nation.

It exposes why middle-class Americans—salaried workers who are given routine pay hikes and retirees who depend on annual increases in their corporate pension and Social Security payments—cannot maintain their standard of living. Plainly and simply, the Index shows that their income can't keep up with their expenses and it explains why they increasingly have to turn to the government for entitlements for supplementation.

Mainstream Democrats such as Nancy Pelosi, Mxine Waters, Chuck Schumer exacerbate the situation by allowing the use of even more inequitable methods such as

the new chained CPI to help assure that seniors can languish in poverty as soon as possible.

The problem of lacking transparency on true costs (true inflation) occurs because salary and benefit increases are pegged to the fraudulent Consumer Price Index (CPI), which for more than a century has purported to reflect the fluctuation in prices for a typical “basket of goods” in American cities — but which actually hasn’t done that for the last 30 years.

The middle class has seen its purchasing power decline dramatically in the last three decades, forcing more and more people to seek entitlements when their savings are gone. And as long as pay raises and benefit increases are tied to a false CPI, this trend will continue.

How many of your friends have said how can they say there is no inflation when you see it in your insurance premiums, at the gas pump, and in the supermarket. Are we to believe that our government lives on a different planet?

In the past, nobody was anxious to throw the proverbial grandma under the bus. Now, believe it or not, hordes of constituencies are lining up to be the first to fleece what should belong to her, into the eternal abyss, never to be seen again. The list of offenders includes: Congress, government officials, professors in academia, the “greatest” economic advisors the world has ever known, and dejected stand-alone economists who failed to gain tenure at any university.

This group of elite misfits have formed a diabolical consortium to cheat seniors out of their due cost of living

increases promised from the very day the SSR act was passed in 1935 by Franklin Delano Roosevelt.

As the mainstream Democrats kowtow to cultural elites and financial institutions, turning their backs on the workers and middle-class that defined their constituency for much of the 20th century, it is up to us to pick up the slack and fight for the rights of everyday Americans.

(Candidate's name) Lou Barletta, running against (opponent's name). (an official not rooting for seniors), is a mainstay on the (location) pro-senior team.

When SSR was enacted, the president promised full dollar value throughout the years in order to ensure its passage in 1933. We cannot let this be undermined by the likes of Chuck Schumer and Nancy Pelosi.

Many Americans are concerned that the Social Security program itself may not be able to sustain itself while others see the government cheating on the cost of living increases (CPI) thereby predetermining a life of squalor for seniors.

All successful societies throughout the ages, have maintained respect and dignity for their elders. Not only is cheating seniors a moral failure, it is a sign of a civilization entering an era of decay.

While seniors are losing their homes and many, for want of bread and milk, are on the verge of heading to the proverbial poorhouse or worse—the clutches of the Grim Reaper, Congress in 2018 pretended to care, giving a 2% raise, but then quickly snatched it right back in the dead of night via a Medicare Part B premium increase. This additional

Medicare Part B charge for necessary health services for seniors was excluded from the cost of living calculations. How could Congress have missed that?

Thus, to pay Medicare part B, seniors have been forced to use their “generous” 2% raises, rather than to offset the costs brought forth from inflation in 2017 for which the 2% was intended. Since the real inflationary cost increases were closer to 11% according to the index, that means that instead of 9% that seniors were to endure, they accrued a full load of 11% in price increases. It’s easy to understand why this constant drainage of resources is unsustainable for a senior citizen. More and more are forced to go to welfare or give up as their homes are foreclosed.

How did we reach this point?

Early in the administration of disgraced former President Bill Clinton, an economist named Michael Boskin, and Alan Greenspan, Chairman of the Board of Governors of the Federal Reserve System, devised a scheme that would allow for market basket “substitutions” to artificially lower the cost of living and result in lower payments to our oldest Americans.

These guys found value in having senior citizens help save the big government money. Prior to their involvement, the consumer price index (CPI) was measured using the cost of a fixed basket of goods, a fairly simple and straightforward concept.

The identical basket of goods would be priced at prevailing market costs for each period, and the period-to-period

change in the cost of that market basket represented the rate of inflation in terms of maintaining a constant standard of living. That was self-evidently fair and reasonable, and predictably resulted in seniors receiving annual COLA increases in tandem with the prices of goods actually increasing.

But Boskin and Alan Greenspan argued that when one item in the basket, for instance steak, became too expensive, the consumer would substitute hamburger for the steak, and that the inflation measure should reflect the costs tied to buying hamburger rather than the steak. Eventually, it became OK for the bureaucrats to replace hamburger with less expensive tuna and eventually because the protein value was the same, cat tuna replaced regular tuna in the market basket.

The Bureaucrats like to tell observers that seniors did not have to eat the cat tuna, but their basket costs would be the same if they did.

In simple terms, the government began to play games with Social Security annual inflation adjustments. It was intentional. To further obscure the true cost of living, other items were selectively removed from the basket when the prices were high and then reinserted when the prices were low. The objective was to save the government money not to make sure that things were fair for elderly Americans.

Many people have been familiar with this ruse. For example, an economic commentator named Barry Ritholtz joked that Greenspan's core inflation metric can more accurately be described as "inflation ex-inflation," meaning inflation after all of the inflation has been excluded. This demonstrates that the deception of seniors has been intentional, and it

continues with a new notion called the chained CPI that will cost seniors even more. We need (candidate's name), and Trump to get this back on track.

The fact is that government has deceitfully stolen directly from the pockets of our beloved seniors by denying them a fair cost of living increase just to stay even. Some have even suggested that the government believes a natural limit exists so they won't get caught in their ruse. They think they will get no criticism because over time, many of the complainants will be silenced by their deaths when they can no longer afford to pay up. Charming thought?

Walter J. Williams, an American blessing who operates the Shadowstats site has demonstrated that seniors have been stiffed by much more than just 125% and in fact should be receiving more than 4 times what their dollars were worth in 1980. That's \$450 instead of \$100.00.

Any senior would love to have even a small proportion of that loss back. Government lies cost \$350.00 since 1980. But nobody will ever see that and even great representatives, are not telling Americans that it is happening.

I hope I have convinced you all that seniors have been ripped off and are being ripped off financially all the time by their own government. Congress is the real culprit.

So, what do I recommend for now? First of all in (location), send (opponent's name) home for good. He voted for (# years) years in favor of those who stiffed seniors to the point of their giving up. In other areas of the country, send as many RINOS and Democrats home as you can. Both of these anti-American, anti-senior representatives ought to be

begging for our forgiveness. They won't so let's send in the well-qualified replacement player – (Candidate's name).

Yes, please, in their stead, please vote for (candidate's name).

A gradual remedy for seniors, since it would be difficult to give seniors the proper increase immediately needed to offset this total quagmire caused by government malfeasance, my recommendation would be to approach it gradually, in a way that seniors would be somewhat pleased, and be able to live out their golden years in a much more dignified manner. Who can argue with that?

For the next four years, therefore, the COLA boost that I'd recommend would be 15% above the real inflation rate as calculated by the index. After four consecutive years, that should be sufficient to remove seniors from the on-deck circle they currently occupy directly outside the homeless shelter.

That's all it would take. Then we can use the measurements that were in effect before the government fraud, in which a dollar was a dollar and a dime was a dime, and the US must vow to never stiff seniors again.

Thank you, dear readers, for your attention on these important matters.

In conclusion, I must again express my gratitude for your consideration and any support as we work together to make America even greater. God bless America and help us all make her better!

Chapter 9 #4 Eliminate All Student Debt!!!

Student debt is huge

College graduates with massive debt cannot buy homes, and furniture or new cars, and they cannot get married and begin families. Can America afford to lose a whole generation of offspring. America and Americans can do a lot better than this for our newest generation of young adults.

In 2018, the total amount of student debt outstanding is \$1.48 Trillion. More and more young adults simply cannot repay. Most are looking for relief but do not want to put the rest of America on the hook for an education that went bad for them. Universities and colleges take no blame--though many Americans see them as the real perpetrators.

If Academia admitted the truth that they lied to the freshman, then maybe everybody today owing the national government for a student-loan package that committed kids

to pay and pay and pay and pay and gain nothing, would be asking Academia to pony up a few bucks to help solve the student debt crisis.

Some citizens and many of our friends have asked: “Why do our young people no longer matter?” Do they matter? To Congress, they do not matter at all.

We Americans live in an age when everybody seems to have a reason to pick on millennials. It happens this group owes most of the student debt in America. I am sure your average Bank Officer would not consider loaning a “spoiled” millennial “ingrate” as much as a dollar for a cup of coffee.

However, the same Bank Officer just a few years previous, would OK a millennial for a hundred-thousand-dollar loan or more at a college or university. Why is that? They loaned huge sums even though the young faces of the borrowers gave away the fact that they had yet to finish with puberty.

I regret that is true and now many of our youngest citizens are stuck because they committed at 18 years of age and some even as young as seventeen. They may have even signed their loan papers at sixteen. Should these young people have been entrusted with such huge loans? You intrinsically know the answer.

Whether millennials are deserving of the bad rap or not, they represent a lost generation of our society. For the sake of all of America, they need to be invited back in. We all have student loan debtors in our families – sons, daughters, nephews, nieces, even grandparents and parents when we consider cosigners in the indebted mix.

We admire those who have been able to pay their own loan debt, but we acknowledge many in our own families who cannot afford even the interest. And, so they feel they have no choice but to become leaches on society and as time passes, we see that they no longer even have the will to participate in the loan game at all.

They default and hide from the collectors and they have little to spend on anything. This hurts these young people more than you can imagine and it also hurts our economy as they should be the biggest spenders.

I have proposed that any candidate for national office offers legislation when first elected to make sure we solve this nasty American problem. There have been many other debt-reliefs in our history but none that could deliver such an immediate positive punch to so many actual Americans all at once. The upside would be overwhelming. It would be a giant humanitarian return and a major economic return—far greater than any bailout in history. Let's consider it. It is not unprecedented.

A Bailout is a Bailout?

Many of us remember bailouts of the past from 2007 pre-Obama onward. We had bank bailouts, auto company bailouts, TARP bailouts and many other unnamed bailouts. Did any of these help your family? Of course not. Help with student loans would help regular Americans more than any of these bailouts.

Bailout fever began right before Obama became President and continued. The President managed all of the money—

trillions. He chose not to give a dime to help student loan debt but spared no expense showering the degenerate financial institutions that owned his candidacy with gold.

Mike Collins, a Forbes Magazine contributor whose expertise focuses on manufacturing and government policy had this to say:

“Most people think that the big bank bailout was the \$700 billion that the treasury department used to save the banks during the financial crash in September of 2008. But this is a long way from the truth because the bailout--[ten years later] is still ongoing”.

“The Special Inspector General for TARP’s summary of the bailout says that the total commitment of government is \$16.8 trillion dollars with \$4.6 trillion already paid out.” FYI, that is three to ten times the total amount of student debt owed today.

The same banks are now larger and still “too big to fail.” But the indebted students are small potatoes, not significant enough to care about. So, their loans must be repaid with no government assistance.

“But it isn’t just the government bailout money that tells the story of the bailout. This is also a story about lies, cheating, and a multi-faceted corruption, which was often criminal.”

Like most elements of his presidency, Obama made the situation worse when he commandeered the student loan program from Sallie Mae and other lenders. The government now pulls in more than \$50 billion a year from charging usury level interest rates to student borrowers. The

Obama Student Loan Company charges 6.8% as student interest rates.

The CBO estimates that the interest rate on these loans could quickly be reduced from 6.8 percent to 5.3 percent if Obama had not earmarked the profit from the backs of students to subsidize Obamacare.

Not only were millennials duped into huge college loans when they were so young that Clearasil was one of their major expenses, they were duped into believing Obama was in their corner.

Despite what a number of my conservative friends believe, your author believes these student victims deserve a break. Many are now adults. Many of the Americans stuck with huge cosign tabs are grandparents on Social Security. The government actually garnishes their SSR “checks” to pay back the Obama loans.

The federal government is putting up \$16.8 trillion dollars as of 2018 for big banks, and other nameless faces receiving bailout dollars. We still do not know who is getting our money. But, we do know that at about \$1.48 trillion of student debt in total in 2018, the crony friends of government are receiving ten times more of a benefit than our children. Granted many of our children do not need a dime but a much larger percentage need much more than a dime! America and Americans can do a lot better for this generation.

Students are still being victimized by usury after being preyed on as 17-year-olds by admissions counsellors for an all-but worthless college education leading to no job. If given

the choice would you be helping the big banks, or would you ask the government to help our own kids?

What do the people think about Student Debt?

Four in ten Americans believe that President Trump's administration should forgive all federal student debt in order to help stimulate the economy, according to a reasonably new survey revealed in 2017. As time goes by as more Americans realize we are excluding a full generation of Americans in our economy, this number will increase from a simple majority to an overwhelming endorsement of wiping out this scurrilous unfair debt as soon as possible.

We should bring these 48 million former students back into the American way of life as soon as possible.

As we indicated at the beginning of this chapter, the largest share of blame for the student debt crisis lies with the promises made by over-zealous admissions counsellors who convinced immature adolescents to accept a new paradigm about growing up in America. Big bully adults told them it is OK at 18 or 17 or perhaps even 16, to sign up for \$100,000 loans. We now know that for this generation, that was bad advice.

No American can want a full generation of other Americans to be left behind in the Trump economy. We need this debt eradicated now and we need to install safeguards so that young kids who think that they can handle anything, do not have to learn that they actually cannot by experiencing this tragic lesson. Without some help from other Americans, it is hopeless.

According to MoneyTips.com, attitudes have changed from a time when Americans thought college students should be punished for making bad choices to today, when we need 48 million new spenders in our economy. Can you imagine the positive economic impact if they were all unleashed at the same time?

They would be unleashed into a world of productivity if no longer burdened with this massive debt. Many of us know first-hand the consequences of this debt burden. Though millennials may not be the most gracious in asking for help, they are Americans, not DACA immigrants, and they need our help now. Even if your child got through himself or herself, without any help, could you dare say no?

Do you want these young people to be poor all of their lives? Are you mad at them because they cannot pay back their loan but not upset with others who use the bankruptcy courts or the welfare system to handle their debt? Think about the answer, please?

The raw economic fact, regardless of your philosophical preference is that spenders with the greatest potential to spend today are not spending at all in real numbers because of student debt. They are not getting married. They are not having families and they are not buying homes. We must solve this scourge on our country so that this generation can produce other generations of reasonably wealthy regular Americans.

I have friends who say: “my Johnnie and my Elsie had to pay it all off and they did...those lazy louts should just cough it up!” As a country, the US has not ever had to vote

to permit the poor to starve because somebody paid something more or less than somebody else. We should not start now.

Just remember that the children of Americans, our children are not MS-13 members in disguise; they are our kids—American kids. They were snookered to join academia for what they were deceived into believing was an indispensable college degree by depraved loan sharks. Let's give them a full chance to recover.

After what they went through, why not another chance? It costs a university nothing when their students with huge loans fail. Please let that sink in. Should they also take a stake at helping bring these students that they simply cast away, back as productive human beings?

Let me review the plight of young American college attendees and graduates. Barely out of adolescence, these young Americans were wheedled into commitments based on fraudulent promises by admissions counselors and financial institutions.

It was unfair to pit experienced loan sharks against adolescent teenagers. The students were further damned by a paid-for Congress, whose lobbyists insisted that these select few, with student debt, distinct from all of the others in debt in America, should have no opportunity for any relief in the bankruptcy courts. Why is that?

Non-college graduates with a trillion dollars in credit card debt are still able to obtain full relief from the courts. Why did Congress exclude these former teenagers, who clearly

have been the biggest victims of loan-shark organized racketeering ever seen in America? Why?

We need to take action to eliminate all student debt. I hope you all agree. Let's help these young Americans before they are lost forever.

Young teenagers were told all through high school that the best ticket for a successful life is a college education. Is this true today? The salaries of college graduates recently began to lag behind those of non-college educated professionals such as plumbers, electricians, computer repair personnel, operating engineers, and more. Worse than that, graduates do not get jobs in their majors because most of the jobs are taken by graduates from other countries with special visas who overstay.

Because of their reliance on these deliberately false misrepresentations, each of these young people now owe an approximate average of \$50,000 in student debt while their admissions counsellors and loan sharks revel in riches, in their Mercedes, BMW's, and third vacation home on the lake.

Unscrupulous malefactors with self-interest-filled agendas persuaded America's teenagers, many so young they still had *Acne vulgaris*, to dig themselves huge financial holes with no escape. Universities are at least partly responsible for their unfulfilled promises. Don't you think?

We must also consider what liability universities may share in compensating this lost generation where one out of six student borrowers must default today—a figure that only has increased with time.

Removing this debt may not fully compensate for the bad hand they were dealt, but its consequent increase in economic activity will benefit all of us. It will boost the US economy beyond expectations. We are already giving bailouts of over \$16 trillion to obscenely rich people in corporate shadows. Who says we cannot help our American progeny even if they are millennials?

Right now, we need a mere 10% of that number to pay for the write-off of student debt without hurting taxpayers and without putting any banks under. The savings over three years, for example from implementing a resident visa program alone would pay off the entire student debt that exists today. Why support illegal aliens when we can help Americans?

One last point. It helps to recall that President Obama increased the National Debt by \$9.1 Trillion in just eight years, hoping to assure that illegal aliens had all the resources they needed to take as many American jobs as they could. Name me a better reason?

This is six times the amount of debt owed by young Americans. Obama nearly doubled our debt. And what do we have to show for that? For a typical college student in the Obama years, the answer is frankly... nothing. By contrast, debt relief for our young Americans will be visibly positive in its impact.

So, let's say Congress wipes out all student debt because it is the fair thing to do. How do we prevent this from ever happening again? For this, I thank my great friend, Dennis Grimes whose solution combines some skin in the game for Academic Institutions to the mix and thus assures that no

student will ever carry debt unless the student is successful with a job in their field of study. Here is how the new loan system designed by Dennis Grimes would work.

Nobody gets a loan unless the college or university agrees to take all of the risk of the loan. If the student is successful, she or he will pay very reasonable amounts on a monthly basis. If the student is jobless, since the university vouched for the student, the school will owe all of the debt.

Academic institutions are smart. They will stop lending quickly to students with very little prospects of being able to pay the loan back. If students do not maintain acceptable averages, they will be expelled, and the university will pay their balance. If the same student wants to go to college in the future, it will be cash only. What do you think? Thank you Dennis.

A Rigged System

You and I are confident that President Trump would re-enfranchise America's youngest generation of adults. by eradicating student debt and paying the balance via savings no longer spent subsidizing illegal immigrants.

In his own words, regarding recent graduates: "They go, and they work, and they take loans, and they're borrowed up, and they can't breathe, and they get through college and the worst thing is, they go through that whole process and they don't have any job." Trump has it right. He sees how this rigged system has snuffed out the optimism of a bright generation that now gives way to cynicism and despair.

I am expecting that (candidate name) already knows how important this is. I would expect any candidate to help enact

the legislation that eradicates all Student Debt, effective immediately. As a side benefit for the candidate, there are 48 million former students plus cosigners who would immediately have an affinity for any legislator who proposed this solution.

The people realize that none of this will happen until they can get new legislators in Congress and the US Senate. Then, these measures can be brought up to the Congress of the US and will become well-known to the conservative press, seniors and millennials. Any American saddled today with the direct result of the abuse of our legislators should not be quiet in these important matters. Remember Congress at the ballot box.

God Bless America!
